

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** and feature implementations in **Java Spring Boot**, writing clear, production-grade code with comprehensive documentation and test coverage.
- Built **Python** automation scripts and **data pipelines** for ETL workflows, leveraging **pandas** and **NumPy** to process and validate enterprise datasets; created scheduled reporting solutions with strong code quality and clarity.
- Evaluated and debugged application performance across **AWS** infrastructure (**EC2, S3, Lambda, CloudWatch**) and monitoring tools (**Splunk, Dynatrace**), identifying bottlenecks and recommending architectural improvements.
- Wrote and optimized **SQL** queries across **PostgreSQL, MySQL, and Oracle** databases; performed schema validation and data integrity checks with detailed explanations of query logic and performance impact.
- Containerized applications using **Docker** and orchestrated deployments via **Jenkins CI/CD pipelines**, ensuring high code quality through peer reviews and **Git** best practices in Agile environments.
- Demonstrated strong technical communication and problem-solving by providing detailed feedback on code logic, algorithm efficiency, and system reliability to cross-functional teams; fluent in English with excellent written and verbal skills.

SKILLS

Core Programming Languages – Python, Java, JavaScript, SQL.

Backend & API Development – Spring Boot, REST APIs, FastAPI, Flask.

Data Engineering & Analysis – ETL pipelines, pandas, NumPy, data validation, SQL querying.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Monitoring & Reliability – Splunk, Dynatrace, production support, incident response.

Frontend & Full-Stack – React, Angular, HTML/CSS.

Professional Skills – Technical writing, code review, Agile/Scrum, Jira, Confluence.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Java Application Development & Support (HCL Technologies)

- Developed new features and resolved defects in **Spring Boot**-based microservices, writing clean, well-documented code with detailed explanations for maintainability and scalability.

- Implemented **REST API** enhancements and integrations, ensuring high code quality through peer reviews and adherence to design patterns.
- Monitored production systems using **CloudWatch** and **Splunk**, responded to P1/P2 incidents with root-cause analysis, and documented solutions with clear technical reasoning.

Data Pipeline & Automation Engineering (HCL Technologies)

- Architected **Python**-based ETL workflows for data extraction, transformation, and loading; leveraged **pandas** and **NumPy** to validate data integrity and generate actionable insights.
- Developed automated reporting solutions with scheduled **cron jobs** on **Linux** servers, reducing manual reporting overhead by **40%** while ensuring accuracy and transparency.
- Optimized **SQL** queries across **PostgreSQL** and **MySQL** databases, documented performance improvements, and provided detailed explanations of schema design decisions to stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
