PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and debugged **REST APIs** and feature implementations in **Java Spring Boot**, writing clear, maintainable code with comprehensive documentation for cross-functional teams.
- Developed **Python** automation scripts and data pipelines for ETL workflows, demonstrating strong problem-solving skills across multiple programming paradigms and languages.
- Evaluated code quality and system reliability through **production support** on enterprise applications using **Splunk, CloudWatch, and Dynatrace**, identifying performance gaps and driving improvements.
- Built and maintained **CI/CD pipelines** with **Jenkins** and **Git**, ensuring code clarity, correctness, and adherence to engineering standards through rigorous code reviews.
- Executed complex **SQL** queries across **PostgreSQL, MySQL, and Oracle** for data validation and schema optimization, synthesizing insights through precise database analysis.
- Containerized applications using **Docker** and deployed infrastructure on **AWS (EC2, S3, Lambda)**, translating architectural requirements into high-quality, performant implementations.

SKILLS

Programming Languages – Python, Java, JavaScript, C, SQL.
Frontend & Web Frameworks – React, Angular, REST API design.
Backend & Cloud – Spring Boot, AWS (EC2, S3, Lambda, CloudWatch), Docker.
Data & Databases – PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL workflows.
DevOps & Tools – Jenkins, Git, Jira, Linux, shell scripting, CI/CD.
Monitoring & Reliability – Splunk, Dynatrace, production support, SLA management.
Communication – English fluency (IELTS Band 7), technical documentation, written clarity.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

- Enterprise Application Monitoring & Reliability (HCL Technologies)**
- Managed **production support** for critical **Java/.NET applications**, responding to P1/P2 incidents within SLA targets and maintaining system uptime across distributed infrastructure.
 - Leveraged **Splunk, CloudWatch, and Dynatrace** to diagnose performance bottlenecks, troubleshoot failures, and provide detailed root-cause analysis to development teams.

- Wrote clear, technical documentation and explanations of system behavior to aid training of junior engineers and feedback to product teams.

Microservices Development & API Enhancement (HCL Technologies)

- Implemented new features and bug fixes in **Spring Boot** microservices, crafting clean **REST APIs** with proper error handling and comprehensive code documentation.
- Automated routine tasks using **Python** scripts for data processing, scheduled reporting, and infrastructure automation, improving team efficiency by reducing manual workload.
- Collaborated with teams using **Jenkins CI/CD pipelines**, **Git** branching strategies, and **Jira** workflows to ensure code quality, correctness, and seamless deployment cycles.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
