

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and evaluated **Python** code quality across **data pipelines** and **ETL workflows**, ensuring clarity and performance standards aligned with production reliability requirements.
- Developed **REST APIs** and microservices using **Java Spring Boot**, writing clean, well-documented code with detailed explanations for cross-functional teams and stakeholders.
- Built **data analysis and visualization** tools using **pandas, NumPy, and Python scripting** to synthesize insights from complex datasets and generate actionable reports.
- Debugged and reviewed **code accuracy** across multiple programming languages (**Java, Python, SQL**), providing constructive feedback to improve system reliability and maintainability.
- Leveraged **AWS services (EC2, S3, Lambda)** and **Docker** containerization to design scalable solutions, demonstrating full-stack engineering capability from backend to infrastructure.
- Collaborated in **Agile/Scrum** environments, participated in code reviews, and communicated technical solutions clearly through **Confluence** documentation and team ceremonies.

SKILLS

Programming Languages – Python, Java, JavaScript, C, SQL.

Frontend & Web – React, Angular, REST APIs.

Backend & Frameworks – Spring Boot, Flask, FastAPI.

Data & Analysis – pandas, NumPy, ETL, data pipelines, SQL (PostgreSQL, MySQL, Oracle).

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Tools & Practices – Jira, Confluence, Agile/Scrum, Linux, code review, technical writing.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, SLA management.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Code Quality Assessment (HCL Technologies)

- Conducted **production support** and monitoring of enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, managing SLA compliance and responding to P1/P2 incidents.
- Evaluated code accuracy and performance of features developed by team members, providing detailed written feedback on clarity, optimization, and best practices.

- Analyzed system logs and performance data using **Linux shell scripting** and **SQL** queries to identify root causes and validate data integrity across distributed systems.

Data Pipeline Development & Automation (HCL Technologies)

- Designed and implemented **Python**-based **ETL pipelines** and scheduled reporting workflows using **pandas** and **NumPy**, processing and visualizing data insights for stakeholder consumption.
- Developed **REST APIs** with **Java Spring Boot** to expose data and reporting functionality, with clear documentation and comprehensive code explanations for integration teams.
- Orchestrated **CI/CD pipelines** through **Jenkins** and **Git**, ensuring code quality gates and automated deployment of **Docker**-containerized services to **AWS** infrastructure.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
