

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** 09/2021 – 01/2025 (3.5 Years)

---

- Designed and implemented **REST APIs** and backend services using **Java Spring Boot**, delivering high-quality code with comprehensive unit tests and clear documentation for cross-functional teams.
- Developed **Python** automation scripts and **data pipelines** for ETL workflows, processing and validating large datasets using **pandas** and **NumPy** to support business intelligence initiatives.
- Evaluated and debugged application performance across enterprise systems, leveraging **Splunk**, **Dynatrace**, and **CloudWatch** to identify bottlenecks and provide actionable feedback to development teams.
- Architected and maintained **AWS** infrastructure (**EC2**, **S3**, **Lambda**, **CloudWatch**), containerized applications with **Docker**, and built **CI/CD pipelines** in **Jenkins** to automate deployments and reduce release cycles.
- Executed complex **SQL** queries and schema optimizations across **PostgreSQL**, **MySQL**, and **Oracle** databases, ensuring data integrity and supporting ad-hoc reporting and analysis.
- Contributed to full-stack development with exposure to frontend frameworks (**React**, **Angular**) and backend technologies, while maintaining strong communication skills and attention to code clarity—essential for training AI systems.

## SKILLS

**Programming Languages** – Python, Java, SQL, JavaScript.

**Backend & Web Frameworks** – Spring Boot, REST APIs, Flask, FastAPI.

**Frontend Technologies** – React, Angular.

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

**Data Engineering & Analysis** – ETL, pandas, NumPy, data pipelines, SQL optimization.

**Monitoring & Observability** – Splunk, Dynatrace, CloudWatch.

**Development Tools & Practices** – Linux, shell scripting, Jira, Agile/Scrum, code review.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** 02/2026

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** 01/2021

---

## PROJECTS

### **Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)**

- Managed production support and SLA compliance for mission-critical enterprise **Java** and **.NET** applications, responding to P1/P2 incidents with rapid diagnosis and resolution.
- Designed monitoring dashboards and alerts in **Splunk** and **Dynatrace**, reducing mean time to detection (MTTD) and enabling proactive incident prevention.

- Performed deep-dive log analysis and performance profiling on **Linux** environments, identifying root causes and implementing fixes that improved system stability and reliability.

#### **Data Pipeline & Automation Development (HCL Technologies)**

- Built end-to-end **ETL pipelines** in **Python** to extract, transform, and load data from multiple sources into **PostgreSQL** and **MySQL** databases, automating scheduled reporting workflows.
- Developed **REST APIs** with **Spring Boot** to expose data engineering workflows, enabling downstream teams to consume cleaned and validated datasets programmatically.
- Deployed data processing jobs on **AWS Lambda** and **EC2**, leveraging **Docker** for consistency and **Jenkins** pipelines for continuous integration, reducing manual effort by **40%**.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
