PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and resolved **diverse coding problems** across **Java, Python, and SQL** while supporting production enterprise applications; demonstrated ability to write clear, high-quality code snippets with detailed explanations for peer review and knowledge sharing.
- Evaluated and debugged **REST APIs** and backend services built with **Spring Boot**, identifying performance bottlenecks and code clarity issues—skills directly applicable to assessing AI-generated code for accuracy and performance.
- Developed **Python automation scripts** and **data pipelines** using **pandas** and **NumPy** for ETL workflows and scheduled reporting; synthesized data insights through analysis and validation queries on **PostgreSQL, MySQL, and Oracle** databases.
- Deployed and monitored applications on **AWS (EC2, S3, Lambda, CloudWatch)** with **Docker** containerization; managed **CI/CD pipelines** via **Jenkins** and **Git**, ensuring code quality through rigorous code reviews and Agile ceremonies.
- Provided production support and P1/P2 incident response using **Splunk, CloudWatch, and Dynatrace** for SLA management; demonstrated strong problem-solving and communication skills in fast-paced, reliability-focused environments.
- Completed **MSc in Data Analytics** and earned certifications in **Full Stack Java Spring Boot & Angular, Web Development**, and **Python Programming**; fluent in English (IELTS Band 7/9) with excellent written communication skills.

SKILLS

Core Programming Languages – Java, Python, SQL, JavaScript, C.

Backend & API Development – Spring Boot, REST APIs, FastAPI, Flask.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, ETL, pandas, NumPy.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Frontend & Full-Stack – Angular, React.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, SLA management.

Tools & Practices – Jira, Confluence, Linux, shell scripting, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Application Production Support & Reliability Engineering (HCL Technologies)

- Monitored and maintained **Java/.NET enterprise applications** in production using **Splunk, CloudWatch, and Dynatrace**, managing SLAs and resolving P1/P2 incidents with **25%+ faster response times** through proactive log analysis and **Linux shell scripting**.
- Debugged and diagnosed complex backend issues in **Spring Boot REST APIs**, providing feedback on code quality, performance, and clarity to improve system reliability.
- Automated incident response workflows using **Python scripting** and cron jobs, reducing manual intervention overhead and improving team efficiency.

Data Pipelines & Cloud Infrastructure Development (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** and scheduled reporting systems using **pandas, NumPy, and PostgreSQL/MySQL** to process and validate large-scale enterprise data.
- Provisioned and managed **AWS infrastructure (EC2, S3, Lambda, CloudWatch)** with **Docker containerization**, establishing automated **CI/CD pipelines via Jenkins** and **Git** for reliable deployments.
- Performed ad-hoc **SQL data validation** and schema changes across multiple databases; synthesized analytical insights through data analysis and visualization for stakeholder reporting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
