

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and solved **diverse coding problems** across **Java, Python, and SQL** in production environments, writing clear, high-quality code snippets with detailed explanations for enterprise systems serving thousands of users.
- Evaluated and debugged **AI-generated code** and system outputs using **Splunk, Dynatrace, and CloudWatch**, providing actionable feedback on accuracy, performance, and clarity to improve system reliability and SLA compliance.
- Developed **Python data pipelines and ETL workflows** with **pandas and NumPy**, transforming raw data into insights through analysis and visualization—directly supporting data-driven decision-making across teams.
- Built and maintained **REST APIs** and backend services using **Java Spring Boot**, demonstrating proficiency in full-stack development and the ability to write production-grade code that passes rigorous code reviews.
- Automated routine engineering tasks with **Python scripting, shell scripting, and cron jobs** on **Linux** systems, reducing manual effort and improving operational efficiency in **CI/CD pipelines via Jenkins**.
- Collaborated on cross-functional teams using **Git, Jira, and Agile ceremonies**, consistently delivering high-quality work within sprint cycles and contributing to a culture of continuous improvement and peer feedback.

SKILLS

Core Programming Languages – Python, Java, JavaScript, C, SQL.

Backend & Full-Stack Development – Spring Boot, REST APIs, Flask, FastAPI.

Frontend & UI – React, Angular.

Data Engineering & Analysis – pandas, NumPy, ETL, data pipelines, PostgreSQL, MySQL, Oracle.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Monitoring & Reliability – Splunk, Dynatrace, log analysis, Linux, shell scripting.

Tools & Collaboration – Jira, Confluence, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Production Support (HCL Technologies)

- Managed production support and real-time monitoring of enterprise **Java and .NET applications**, responding to **P1/P2 incidents** with **SLA management** using **Splunk, CloudWatch, and Dynatrace**.

- Analyzed system logs and performance metrics on **Linux** environments to diagnose root causes, reducing incident resolution time and improving system uptime.
- Authored detailed incident reports and post-mortems, providing clear explanations of failures and solutions—directly shaping operational practices and team knowledge.

Data Pipeline & Automation Engineering (HCL Technologies)

- Architected and deployed **Python-based ETL pipelines** using **pandas** and **NumPy** to process, validate, and transform large datasets, enabling automated scheduled reporting across business units.
- Developed **shell scripts and Python automation** to streamline data validation, schema migrations, and **ad-hoc SQL queries** against **PostgreSQL, MySQL, and Oracle** databases.
- Integrated data workflows with **Jenkins CI/CD pipelines**, ensuring reliable execution and providing stakeholders with actionable data insights through visualization and analysis.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
