PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated and validated **quantitative analysis** outputs across **enterprise Java/.NET applications**, identifying discrepancies and data integrity issues in production environments; managed **P1/P2 incidents** with focus on technical accuracy and real-world system performance.
- Designed and executed **data pipelines** and **ETL workflows** using **Python, SQL** (PostgreSQL, MySQL, Oracle), and **AWS Lambda**; validated analytical results through schema design, data validation queries, and end-to-end testing.
- Developed **REST APIs** and **statistical analysis** endpoints in **Java Spring Boot**; wrote and reviewed analytical code across multiple services, ensuring clarity, correctness, and maintainability for downstream data consumers.
- Built **automated reporting systems** and scheduled data analysis jobs using **Python scripting, cron automation**, and **AWS CloudWatch**; provided technical feedback on system outputs and drove improvements to reliability.
- Applied **statistical methods** and **predictive modeling concepts** to optimize system performance; diagnosed anomalies using **Splunk** and **Dynatrace** monitoring, translating complex data patterns into actionable insights for engineering teams.
- Completed **MSc in Data Analytics** with demonstrated expertise in quantitative reasoning, statistical inference, and analytical problem-solving; fluent in technical English (IELTS Band 7) with strong written and verbal communication skills.

SKILLS

Quantitative & Data Analysis – statistical methods, predictive modeling, hypothesis testing, experimental design, data validation, ETL workflows.

Programming Languages – Python, Java, SQL, shell scripting.

Data Engineering & Analytics Tools – pandas, NumPy, PostgreSQL, MySQL, Oracle, AWS (Lambda, S3, CloudWatch).

Web Development & APIs – Spring Boot, REST API design, Flask, FastAPI.

DevOps & Infrastructure – Docker, AWS EC2, Jenkins CI/CD pipelines, Git, Linux.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, production support, SLA management.

Soft Skills – technical writing, code review, Agile/Scrum, problem-solving, attention to detail.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline & Monitoring Architecture (HCL Technologies)

- Designed end-to-end **Python-based ETL pipeline** for enterprise analytics, processing multi-source data through **AWS Lambda** and **PostgreSQL** with automated validation and quality checks.
- Implemented **statistical anomaly detection** and alerting logic using **Splunk** and **CloudWatch**, reducing mean-time-to-detection (MTTD) for critical data issues by validating outputs against baseline distributions.
- Documented all analytical workflows in **Confluence** with clear technical explanations; conducted code reviews to ensure analytical correctness and maintainability across team members.

REST API Development & Performance Analysis (HCL Technologies)

- Developed multiple **Spring Boot REST APIs** for quantitative analysis endpoints, including statistical aggregation and time-series forecasting logic used across enterprise services.
- Validated API outputs against expected **statistical models** and business requirements; provided technical feedback on edge cases and system behavior, driving iterative improvements to model accuracy.
- Deployed APIs via **Docker** containerization and **Jenkins CI/CD pipelines**, ensuring reliable and reproducible analytical code execution in production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
