PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Evaluated and validated **enterprise data pipelines** and **ETL workflows** using **Python**, **SQL**, and **pandas**; designed automated **data validation** scripts that reduced manual QA effort by **40%** and ensured data integrity across production systems.
- Analyzed system performance and incident patterns using **Splunk**, **Dynatrace**, and **CloudWatch**; provided technical feedback on monitoring thresholds and alert tuning that improved incident detection accuracy and reduced MTTR by **30%**.
- Built and maintained **REST APIs** and microservices using **Java Spring Boot**; wrote end-to-end analytical code for feature validation and performance benchmarking, with strong attention to code clarity and technical documentation.
- Solved complex technical problems spanning **statistical inference**, **data modeling**, and optimization across **AWS** infrastructure; applied **shell scripting** and **Linux** automation to design repeatable solutions for quantitative analysis tasks.
- Conducted **A/B testing** and statistical analysis on application metrics; interpreted experimental results using hypothesis testing and regression to shape feature prioritization and deployment decisions.
- Completed **MSc in Data Analytics** (Feb 2026) with focus on statistical methods, predictive modeling, and machine learning; complemented practical experience with formal training in experimental design, data science workflows, and analytical problem-solving.

SKILLS

Quantitative & Statistical Methods – hypothesis testing, regression analysis, A/B testing, experimental design, statistical inference, predictive modeling, data validation.

Programming & Scripting – Python, Java, SQL, shell scripting, REST APIs.

Data Engineering & Analytics – ETL pipelines, data modeling, pandas, NumPy, SQL (PostgreSQL, MySQL, Oracle), Splunk, Dynatrace.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Web & Backend Frameworks – Spring Boot, Flask, FastAPI, React, Angular.

Tools & Platforms – Jira, Confluence, Agile/Scrum, technical writing and documentation.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Production Data Quality & Reliability Engineering (HCL Technologies)

- Designed **Python-based data validation pipelines** that monitored and evaluated the accuracy of enterprise application outputs in real-time; implemented automated checks for statistical anomalies and data consistency across **PostgreSQL** and **Oracle** databases.
- Collaborated with platform teams to translate data quality requirements into testable rules; provided technical feedback on monitoring logic and validation thresholds that prevented **15+ critical data issues** from reaching production.
- Documented validation methodologies and analytical approaches in clear, technical formats; ensured all code and logic were reproducible and auditable for compliance and incident investigation.

Performance Analysis & Optimization for Microservices (HCL Technologies)

- Analyzed **Java Spring Boot microservice** performance metrics using **Dynatrace** and **CloudWatch**; designed experiments to validate the impact of code changes on latency, throughput, and resource utilization.
- Built **Lambda** functions and **SQL queries** to extract and model performance trends; applied statistical methods to identify significant performance regressions and correlate them with deployment events.
- Provided detailed technical feedback to engineering teams on optimization opportunities; recommendations directly shaped architectural and scaling decisions for high-traffic services.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
