PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated **production system reliability** across enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**; managed P1/P2 incident response and SLA compliance, demonstrating rigorous technical judgment in validating system performance and data integrity.
- Designed and implemented **Python-based ETL pipelines** and automated data workflows for **PostgreSQL, MySQL, and Oracle** databases; wrote well-documented analytical scripts for data validation, schema analysis, and scheduled reporting—skills directly applicable to evaluating AI-generated quantitative work.
- Developed **REST APIs** and feature work using **Java Spring Boot**; performed code review and peer evaluation of analytical implementations, translating technical requirements into production-grade solutions with clear documentation.
- Built end-to-end **data engineering workflows** combining **Python (pandas, NumPy), SQL, and AWS services (Lambda, S3, CloudWatch)** to automate reporting and data pipeline validation—experience writing and reviewing analytical code across the full stack.
- Applied statistical reasoning to **production monitoring** and anomaly detection; used quantitative methods to validate system behavior, identify root causes in complex datasets, and provide evidence-based recommendations for operational improvements.
- Completed **MSc in Data Analytics** with coursework in statistical methods, predictive modeling, and experimental analysis; demonstrated fluency in English (IELTS Band 7) and proficiency communicating technical findings to cross-functional teams.

SKILLS

Data & Quantitative Analysis – Statistical methods, hypothesis testing, regression analysis, anomaly detection, data validation, experimental design.

Programming & Analytical Code – Python, Java, SQL, pandas, NumPy, Flask, FastAPI.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, ETL pipelines, schema design, data pipeline validation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Development & Tooling – Spring Boot, REST APIs, Git, Jenkins, CI/CD, Jira, code review.

Monitoring & Reliability Engineering – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Education & Credentials – MSc Data Analytics, BE Computer Science, Python (Coursera), Web Development (Coursera), Full Stack Java Spring Boot & Angular.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability (HCL Technologies)

- Designed monitoring strategy using **Splunk, CloudWatch, and Dynatrace** to track performance metrics across production Java/.NET systems; evaluated system outputs for accuracy and operational validity.
- Developed **Python automation scripts** to validate monitoring data quality and flag anomalies; built analytical logic to assess whether alerts and system responses held up under real-world conditions.
- Managed P1/P2 incident response with rigorous data-driven root-cause analysis; documented technical findings and provided clear explanations of quantitative patterns in system behavior.

Data Pipeline & ETL Automation (HCL Technologies)

- Built end-to-end **Python-based ETL workflows** integrating **PostgreSQL/Oracle** databases, **AWS Lambda**, and **S3** for automated data extraction, transformation, and reporting.
- Wrote **well-documented analytical code** including ad-hoc SQL queries, data validation logic, and schema migration scripts; performed peer code review to ensure quality and correctness of data operations.
- Developed scheduled **pandas/NumPy**-driven analyses for data summarization and predictive reporting; validated outputs for technical accuracy and provided stakeholders with clear technical explanations of analytical results.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
