

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and debugged **REST APIs** and microservices using **Java Spring Boot**, writing clear, high-quality code with detailed documentation for feature delivery and bug fixes across enterprise applications.
- Evaluated system reliability and performance through **production monitoring** with **Splunk, CloudWatch, and Dynatrace**, managing P1/P2 incidents and maintaining SLA compliance through rapid response and root cause analysis.
- Automated data workflows and ETL pipelines using **Python** scripting (**pandas, NumPy**), reducing manual reporting effort and improving data accuracy for downstream analytics teams.
- Wrote and optimized **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases, performing data validation and schema modifications to support application requirements and business intelligence initiatives.
- Deployed and managed containerized applications using **Docker** and **AWS services (EC2, S3, Lambda, CloudWatch)**, implementing **CI/CD pipelines** via **Jenkins** to streamline code deployment and reduce release cycles.
- Collaborated with cross-functional teams in **Agile/Scrum** environments, conducting code reviews on **Git** branches and documenting solutions in **Jira and Confluence** to ensure code quality and knowledge sharing.

SKILLS

Programming Languages – Java, Python, SQL, JavaScript.

Backend & APIs – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, production support.

Data & Scripting – pandas, NumPy, ETL, Python automation, shell scripting.

Tools & Practices – Jira, Confluence, Agile, Scrum, code review, Linux.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Built and maintained **Splunk and Dynatrace dashboards** to monitor **Java/.NET applications** across production environments, enabling **real-time visibility** into system health and performance metrics.
- Responded to critical P1/P2 incidents with rapid diagnosis and resolution, analyzing **logs and system traces** to identify root causes and implement fixes that maintained service SLA targets.

- Developed **Python automation scripts** to detect anomalies and trigger alerts, reducing mean time to detection (MTTD) and enabling faster incident escalation.

Microservice Development & Deployment Pipeline (HCL Technologies)

- Developed **REST API endpoints** in **Spring Boot** for enterprise microservices, implementing feature enhancements and bug fixes with clear code documentation and unit test coverage.
- Containerized applications using **Docker** and deployed to **AWS infrastructure** (EC2, S3), establishing repeatable deployment processes and improving consistency across environments.
- Designed and optimized **CI/CD pipelines** using **Jenkins**, automating code compilation, testing, and deployment to reduce release cycle time and human error in production deployments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
