

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** and microservices using **Java Spring Boot**, solving diverse backend coding problems and writing high-quality, well-documented code snippets for enterprise applications.
- Evaluated code quality and performance across **Java**, **Python**, and **SQL** implementations; provided detailed feedback on algorithm efficiency, clarity, and best practices to guide system improvements.
- Automated data pipelines and ETL workflows with **Python** scripting, **pandas**, and **NumPy**, processing and validating large datasets with clear documentation and test coverage.
- Conducted reliability engineering and production support using **Splunk**, **Dynatrace**, and **CloudWatch**; diagnosed P1/P2 incidents and implemented fixes across **AWS** infrastructure (**EC2**, **S3**, **Lambda**).
- Built and containerized applications with **Docker**; implemented **CI/CD pipelines** in **Jenkins** with **Git** version control, code reviews, and deployment automation.
- Managed databases across **PostgreSQL**, **MySQL**, and **Oracle**; performed schema design, ad-hoc querying, and data validation to support backend systems and reporting infrastructure.

SKILLS

Programming Languages – Java, Python, C, SQL, JavaScript.

Backend & Web Frameworks – Spring Boot, REST APIs, Flask, FastAPI.

Databases – PostgreSQL, MySQL, Oracle, data modeling.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Data & Analysis – pandas, NumPy, ETL, Python scripting, data validation.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, SLA management.

Professional Tools – Jira, Confluence, Linux, shell scripting, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Application Support & Optimization (HCL Technologies)

- Developed and maintained **Spring Boot** microservices, building **REST APIs** that processed business logic with clear, high-quality code and comprehensive documentation.
- Evaluated and optimized **Java** application performance; identified bottlenecks in SQL queries and API response times, providing detailed technical feedback for continuous improvement.

- Managed production reliability using **Splunk** and **Dynatrace** monitoring; resolved critical incidents and implemented preventive measures across **AWS** infrastructure.

Data Pipeline & ETL Automation (HCL Technologies)

- Designed and deployed **Python**-based data pipelines using **pandas** and **NumPy** for ETL workflows, with clear logic and detailed comments for maintainability.
- Synthesized insights through **SQL** data analysis and automated reporting; validated data quality across **PostgreSQL** and **MySQL** databases.
- Automated scheduled jobs with **Linux** shell scripting and cron; containerized workflows with **Docker** and deployed via **Jenkins CI/CD** pipelines on **AWS**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
