+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated production systems and AI-generated insights across enterprise **Java/.NET** applications using **Splunk, CloudWatch, Dynatrace**, identifying technical accuracy and real-world validity of system outputs — directly applicable to assessing AI-generated quantitative work at scale.
- Designed and implemented **Python-based data pipelines, ETL workflows, and automated reporting systems** — wrote clean, well-documented analytical code for data validation, transformation, and model-ready dataset preparation.
- Performed **statistical analysis and data-driven insights** using **SQL (PostgreSQL, MySQL, Oracle)** for ad-hoc querying, schema validation, and exploratory data analysis across relational databases.
- Developed and maintained **REST APIs and microservices** using **Spring Boot**, gaining practical experience in designing systems that communicate quantitative outputs and maintain code quality through peer review.
- Completed **MSc in Data Analytics** (Feb 2026) with focus on statistical methods, predictive modeling, and analytical techniques — combining hands-on industry experience with formal quantitative training.
- Demonstrated **fluency in English** (IELTS Academic Band 7/9) with strong technical writing skills through Confluence documentation, code comments, and clear explanations of complex system behavior and data findings.

SKILLS

Quantitative & Statistical Methods – Statistical analysis, predictive modeling, hypothesis testing, regression analysis, experiment design, data validation.

Programming & Code – Python, Java, SQL, shell scripting, REST API development, analytical code review.

Data Engineering & Pipelines – ETL workflows, data pipelines, pandas, NumPy, PostgreSQL, MySQL, Oracle, data transformation.

Machine Learning & Analytics Frameworks – Flask, FastAPI, classification, forecasting, time-series analysis.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins CI/CD.

Monitoring & Reliability – Splunk, Dynatrace, SLA management, incident response, production support.

Languages & Credentials – English (fluency: IELTS Band 7/9), MSc Data Analytics, BE Computer Science.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline & Analytics Platform (HCL Technologies)

- Designed and built end-to-end **Python ETL pipeline** for ingesting, validating, and transforming multi-source data into analytics-ready datasets; implemented automated scheduling using **cron jobs and shell scripting**.
- Wrote **SQL queries and schema optimizations** across **PostgreSQL and Oracle** to support statistical analysis and predictive modeling on **100K+ daily records**.
- Created **pandas and NumPy-based data validation scripts** to ensure data quality, detect anomalies, and flag insights for downstream consumption by analytics teams.

Production Monitoring & Quantitative Insights System (HCL Technologies)

- Built reliability engineering workflows using **Splunk and Dynatrace** to evaluate system performance outputs and validate accuracy of AI-generated anomaly detection against real production data.
- Developed **Python automation scripts** for extracting, analyzing, and visualizing key performance metrics; documented technical findings with clear explanations for cross-functional stakeholders.
- Collaborated with teams to design **A/B testing and hypothesis validation** approaches for evaluating system behavior changes, applying statistical rigor to incident response and SLA optimization.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
