+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated and validated **production system outputs** across enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, ensuring **SLA compliance** and rapid resolution of P1/P2 incidents through rigorous technical analysis.
- Designed and implemented **Python-based data pipelines and ETL workflows** for automated reporting and data validation, demonstrating practical experience with **statistical data processing** and reproducible analytical workflows.
- Conducted **SQL analysis** across **PostgreSQL, MySQL, and Oracle** databases—writing ad-hoc queries, performing data validation, and designing schema changes to support business intelligence and quantitative validation tasks.
- Developed and reviewed **REST APIs** and microservices using **Spring Boot**, with emphasis on code quality, technical documentation, and peer review—skills directly applicable to evaluating AI-generated analytical code end-to-end.
- Applied **AWS services (EC2, S3, Lambda, CloudWatch)** and **Docker** containerization in production environments, gaining hands-on experience with cloud-based data processing and infrastructure reliability engineering.
- Completed **MSc in Data Analytics** (Feb 2026) with coursework in statistical methods, predictive modeling, and data-driven insights; complemented by certifications in **Full Stack Java Spring Boot and Python Programming**, strengthening quantitative reasoning capability.

SKILLS

Data & Analytics – SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy, statistical analysis, ETL, data validation.

Programming & Development – Python, Java, Spring Boot, REST APIs, Flask, FastAPI, Git, shell scripting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins CI/CD.

Monitoring & Reliability – Splunk, Dynatrace, incident response, SLA management, production support.

Quantitative & Professional – hypothesis testing, experiment design, technical writing, Agile/Scrum, strong English communication (IELTS Band 7).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Validated correctness of enterprise system outputs by analyzing **Splunk and Dynatrace** metrics, identifying root causes of anomalies, and providing technical explanations to stakeholders.
- Designed automated monitoring dashboards using **CloudWatch** and custom **Python scripts** to detect quantitative deviations and forecast system behavior, reducing incident resolution time by rigorous data-driven analysis.
- Reviewed and evaluated system logs and performance data end-to-end, applying statistical reasoning to distinguish signal from noise and validate whether operational improvements held up under real-world conditions.

Data Pipeline Engineering & SQL-Based Analytics (HCL Technologies)

- Built **Python-based ETL pipelines** using **pandas and NumPy** to process, validate, and transform large datasets for scheduled reporting, ensuring data integrity and reproducibility of analytical workflows.
- Wrote complex **SQL queries** across multiple database systems (**PostgreSQL, MySQL, Oracle**) to perform ad-hoc analysis, experiment design support, and data-driven validation of business hypotheses.
- Documented analytical code with clear comments and technical explanations, establishing best practices for code review and ensuring team members could validate and reproduce quantitative results independently.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
