+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Evaluated and validated **production system outputs** across enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, ensuring SLA compliance and rapid P1/P2 incident response—directly applicable to assessing AI-generated quantitative work for technical accuracy.
- Designed and implemented **Python-based data pipelines and ETL workflows** for automated reporting and data validation, demonstrating end-to-end analytical code development and **statistical data processing** with **pandas and NumPy**.
- Conducted **SQL analysis** across **PostgreSQL, MySQL, and Oracle** databases—writing complex queries for data exploration, schema validation, and ad-hoc statistical investigations that informed business decisions.
- Developed **REST APIs** and feature enhancements in **Java Spring Boot**, translating quantitative requirements into production code while maintaining rigorous code review standards and **Git-based version control**.
- Built automated monitoring and alerting systems using **AWS Lambda, CloudWatch, and shell scripting**, applying systematic problem-solving and statistical reasoning to optimize infrastructure reliability and reduce incident response time by **40%**.
- Completed **MSc in Data Analytics** with demonstrated expertise in statistical methods, predictive modeling, and experiment design—complementing 3.5 years of hands-on quantitative and engineering experience.

## SKILLS

**Data Analysis & Statistics** – statistical inference, hypothesis testing, regression analysis, predictive modeling, data validation, experimental design.

**Programming Languages** – Python, Java, SQL, shell scripting.

**Data Engineering & ETL** – data pipelines, ETL workflows, pandas, NumPy, database design and querying.

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, CI/CD (Jenkins, Git).

**Technical Communication** – technical writing, code documentation, analytical reporting, Confluence.

**Analytics Tools & Monitoring** – Splunk, Dynatrace, Jira, SQL query optimization.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**Enterprise Application Reliability & Data Pipeline Automation (HCL Technologies)**

- Designed and deployed automated **Python ETL pipelines** to extract, validate, and transform production application metrics from **CloudWatch and Splunk**, enabling rapid statistical analysis of system behavior and performance trends.

- Developed **SQL-based data validation queries** across **Oracle and PostgreSQL** to identify anomalies and assess data integrity, supporting root-cause analysis for incident investigations.
- Implemented **shell scripts and cron-scheduled jobs** on **Linux** servers to automate daily reporting and alerting, reducing manual analysis overhead and improving incident detection latency by **35%**.

#### **REST API Development & Feature Delivery (HCL Technologies)**

- Architected and developed **Java Spring Boot REST APIs** for data-driven microservices, incorporating statistical validation logic to ensure output accuracy and consistency across distributed systems.
- Conducted peer code reviews and maintained rigorous **Git branching** and **CI/CD pipeline** standards using **Jenkins**, ensuring high code quality and reproducibility across feature releases.
- Collaborated with cross-functional teams via **Jira and Agile ceremonies** to translate analytical requirements into production features, demonstrating systematic problem-solving and technical communication skills.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
