

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** and microservices using **Java Spring Boot**, writing clean, maintainable code with comprehensive documentation for cross-team integration and AI training datasets.
- Built **Python**-based data pipelines and **ETL** workflows for analytics and reporting, demonstrating proficiency in problem-solving and data transformation relevant to AI model training scenarios.
- Evaluated and resolved production incidents across **enterprise applications** using **Splunk, Dynatrace, and CloudWatch**, developing strong diagnostic and code review skills critical for assessing AI-generated outputs.
- Deployed and managed containerized applications with **Docker** and **AWS** services (**EC2, S3, Lambda**), building infrastructure understanding applicable to full-stack development and cloud-based coding challenges.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git**, ensuring code quality through automated testing and peer reviews—skills directly transferable to evaluating code clarity and performance.
- Completed **MSc in Data Analytics** with proficiency in statistical analysis, visualization, and communicating technical insights—capabilities essential for synthesizing coding feedback and explaining solution rationale to AI systems.

SKILLS

Programming Languages – Java, Python, JavaScript, C.

Backend & APIs – Spring Boot, REST APIs, FastAPI, Flask.

Frontend & Web – Angular, React.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Data & Databases – SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, ETL pipelines.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch.

Core Competencies – Full-stack development, problem-solving, code quality assessment, technical documentation, Linux.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Managed production support for mission-critical **Java/.NET applications** with **SLA-driven incident response**, analyzing logs and code to diagnose and resolve P1/P2 issues.
- Developed expertise in evaluating application behavior and code correctness using **Splunk, Dynatrace, and CloudWatch**, skills directly applicable to assessing AI-generated code for accuracy and performance.

- Conducted root cause analysis and implemented fixes, demonstrating the problem-solving rigor required to identify and explain code quality issues in training datasets.

Data Pipeline & API Development (HCL Technologies)

- Designed and deployed **Python ETL workflows** and scheduled reporting scripts, automating data validation and transformation for analytics platforms.
- Developed **Spring Boot microservices** exposing **REST APIs** with clear documentation and high code standards, building the full-stack capabilities required for PWA development and coding challenges.
- Containerized applications using **Docker** and orchestrated deployment via **AWS Lambda and EC2**, gaining hands-on experience with modern cloud architectures and infrastructure-as-code practices.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
