

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and evaluated **Python** data pipelines and **ETL workflows** for enterprise applications, writing clear, production-grade code with detailed documentation for team integration and maintainability.
- Developed **REST APIs** and backend services using **Java Spring Boot**, emphasizing code quality, performance optimization, and adherence to coding standards across multiple microservices.
- Solved diverse technical problems in **SQL** (PostgreSQL, MySQL, Oracle) and **Python** scripting, demonstrating strong problem-solving skills applicable to coding assessments and algorithm design.
- Evaluated system reliability and code accuracy through production support and monitoring using **Splunk, CloudWatch, and Dynatrace**, identifying performance bottlenecks and providing actionable feedback to improve system robustness.
- Conducted code reviews and collaborated on **Git** version control and **Jenkins CI/CD** pipelines, ensuring high-quality code standards and best practices across team deliverables.
- Completed **MSc in Data Analytics** alongside full-time engineering role, demonstrating capability to balance complex technical work with structured learning and deliver results in parallel commitments.

SKILLS

Programming Languages – Python, Java, SQL, JavaScript, C.

Backend & API Development – Spring Boot, REST APIs, FastAPI, Flask.

Data Engineering & Analysis – ETL pipelines, pandas, NumPy, data validation, ad-hoc queries.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle, schema design.

Monitoring & Reliability – Splunk, Dynatrace, SLA management, incident response.

Development Tools – Jira, Confluence, Linux, shell scripting, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java/.NET Application Support & Automation (HCL Technologies)

- Managed production support and SLA compliance for mission-critical **Java** and **.NET** applications, responding to P1/P2 incidents with root-cause analysis and resolution documentation.
- Authored **Python** automation scripts for log analysis, data validation, and scheduled reporting, reducing manual operational overhead by automating routine tasks on **Linux** systems.

- Monitored application performance using **Splunk, CloudWatch, and Dynatrace**, translating monitoring data into insights and recommendations for system optimization and reliability improvements.

Microservices Development & Data Pipeline Engineering (HCL Technologies)

- Developed new features and bug fixes for **Spring Boot** microservices, building and maintaining **REST APIs** with emphasis on code clarity, testability, and performance.
- Designed and implemented **Python-based ETL pipelines** and data workflows, writing well-documented code that processes structured data through multiple validation and transformation stages.
- Collaborated on **Git** version control workflows and **Jenkins CI/CD** pipeline configuration, conducting peer code reviews and ensuring adherence to coding standards across the team.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
