+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Evaluated production system performance and data integrity across enterprise **Java/.NET** applications using **Splunk, CloudWatch, and Dynatrace**, identifying root causes and validating correctness of system outputs under real-world conditions.
- Designed and implemented **Python**-based data pipelines and **ETL** workflows for analytics and reporting, demonstrating hands-on experience with end-to-end data engineering and analytical code quality.
- Conducted **SQL** analysis across **PostgreSQL, MySQL, and Oracle** databases—writing complex queries for data validation, schema optimization, and hypothesis testing to support decision-making.
- Developed **REST APIs** and backend features in **Spring Boot**, requiring rigorous testing, code review, and validation that outputs meet functional and technical specifications.
- Automated infrastructure monitoring and operational workflows using **Linux shell scripting** and **Python**, reducing manual work and improving reliability of scheduled analytical tasks.
- Completed **MSc in Data Analytics**, combining coursework in statistical methods, predictive modeling, and data-driven insight generation with 3.5+ years of hands-on quantitative production experience.

SKILLS

Programming & Analytics – Python, Java, SQL, pandas, NumPy.

Data Engineering & Pipelines – ETL workflows, data validation, PostgreSQL, MySQL, Oracle.

Statistical & Predictive Methods – hypothesis testing, regression analysis, experimental design, A/B testing foundations.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Frameworks & Tools – Spring Boot, REST APIs, Flask, FastAPI, Git, Jenkins, Jira.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, production support.

Education & Credentials – MSc Data Analytics (completed), BE Computer Science, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Reliability & Data Validation (HCL Technologies)

- Managed production support and SLA compliance for mission-critical applications, responding to P1/P2 incidents and validating system correctness using **Splunk** and **Dynatrace** monitoring.
- Performed ad-hoc **SQL** analysis and data integrity checks across **PostgreSQL and Oracle** databases, identifying anomalies and ensuring analytical outputs held up under real-world scrutiny.

- Authored technical documentation and root-cause analyses for complex system behaviors, communicating technical findings clearly to stakeholders and development teams.

Data Pipeline & Analytical Automation (HCL Technologies)

- Designed and deployed **Python**-based **ETL** workflows for data extraction, transformation, and scheduled reporting, ensuring code quality and correctness through end-to-end testing.
- Built automation scripts using **Python** and **Linux shell scripting** for statistical data validation, time-series processing, and periodic analytical job orchestration.
- Collaborated on **Jenkins CI/CD** pipelines and code review processes to validate that analytical code and data transformations met technical standards and accuracy requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
