

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated and validated **production reliability** of enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**; managed **P1/P2 incident response** and SLA compliance, developing deep expertise in diagnosing system behavior and data-driven troubleshooting.
- Designed and implemented **Python-based data pipelines** and **ETL workflows** for enterprise reporting; wrote **end-to-end analytical code** using **pandas and NumPy**, directly supporting data validation and quantitative decision-making across teams.
- Performed **statistical analysis and data validation** on large datasets using **SQL** (PostgreSQL, MySQL, Oracle); wrote ad-hoc queries for root-cause analysis, schema optimization, and experiment design—bridging data engineering and analytical reasoning.
- Developed **REST APIs** and backend services in **Java Spring Boot**; contributed to **feature development and bug fixes** with code reviews and **CI/CD best practices** (Jenkins, Git), ensuring technical accuracy and production quality.
- Deployed and monitored applications on **AWS** (EC2, S3, Lambda, CloudWatch); containerized services using **Docker**, gaining hands-on experience with cloud infrastructure and observability—critical for validating real-world system behavior.
- Completed **MSc in Data Analytics** (National College of Ireland, Dublin); demonstrated fluency in statistical methods, predictive modeling, and scientific reasoning through coursework in analytics, quantitative research, and data-driven problem-solving.

SKILLS

Data & Analytics – statistical analysis, predictive modeling, hypothesis testing, data validation, ETL, A/B testing, experimental design.

Programming & Coding – Python, Java, SQL, REST API development, analytical code review and documentation.

Data Science & ML Tools – pandas, NumPy, Flask, FastAPI, Kaggle-style quantitative problem solving.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Databases – PostgreSQL, MySQL, Oracle, schema design, query optimization.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, system reliability engineering.

Professional – IELTS Band 7/9 English proficiency, technical writing, Agile/Scrum, Jira, Confluence, Git version control.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Production Monitoring & Incident Response System (HCL Technologies)

- Built and maintained **real-time monitoring dashboards** in **Splunk and CloudWatch** for enterprise Java/.NET applications; reduced **MTTR by 30%** through systematic log analysis and anomaly detection.
- Designed **automated alerting logic** using **Python scripting** to validate AI-like anomaly thresholds against ground-truth system behavior; provided technical feedback that shaped monitoring strategy.
- Documented root-cause analyses and incident reports with clear technical explanations, enabling cross-team learning and continuous improvement in system reliability.

Data Pipeline & Validation Framework (HCL Technologies)

- Engineered **Python-based ETL pipelines** using **pandas and NumPy** to validate **statistical integrity** of enterprise datasets; automated scheduled reporting with **cron jobs** and **Lambda functions**.
- Performed **ad-hoc SQL analysis** (PostgreSQL, MySQL, Oracle) to design experiments, validate hypotheses, and ensure data quality; demonstrated practical expertise in statistical inference and predictive modeling.
- Wrote well-documented, production-grade analytical code; reviewed and provided feedback on data transformation logic, ensuring technical accuracy and reproducibility across the data engineering team.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
