

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and executed **data pipelines** and **ETL workflows** using **Python** to process large-scale enterprise datasets, enabling automated **statistical reporting** and real-time data validation across production systems.
- Evaluated system reliability and model performance through **production monitoring** with **Splunk, Dynatrace, and CloudWatch**, identifying anomalies and validating data-driven insights for **SLA compliance** and incident resolution.
- Built and maintained **REST APIs** and backend services using **Java Spring Boot**, writing well-documented analytical code and conducting rigorous code reviews to ensure technical accuracy and robustness.
- Performed hands-on **statistical analysis** and **SQL** work (**PostgreSQL, MySQL, Oracle**) including ad-hoc queries, schema design, and data validation to support business intelligence and quantitative decision-making.
- Deployed and managed applications on **AWS (EC2, S3, Lambda, CloudWatch)** with **Docker** containerisation, demonstrating practical experience with cloud infrastructure and automated deployment pipelines via **Jenkins CI/CD**.
- Collaborated across Agile teams using **Jira** and **Confluence** to translate complex technical requirements into executable solutions, with emphasis on clear communication and rigorous problem-solving in quantitative domains.

SKILLS

Data & Statistical Analysis – Python, pandas, NumPy, SQL, statistical methods, data validation, ETL, predictive modeling.

Quantitative & Scientific Reasoning – experimental design, hypothesis testing, regression analysis, time-series analysis, forecasting, optimization.

Backend & API Development – Java, Spring Boot, REST APIs, Flask, FastAPI, code documentation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, production support, SLA management, incident response.

DevOps & Collaboration – Jenkins, Git, CI/CD pipelines, Jira, Agile/Scrum, code reviews.

Databases – PostgreSQL, MySQL, Oracle, schema design, query optimization.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Data Validation (HCL Technologies)

- Designed automated **Python scripts** to validate enterprise datasets against business rules, reducing manual data quality checks by **40%** and improving confidence in downstream analytical outputs.
- Implemented **Splunk and Dynatrace** monitoring dashboards to track application performance and detect anomalies in real-time, enabling **rapid P1/P2 incident response** with measurable SLA improvements.
- Optimized **SQL queries** across **PostgreSQL and Oracle** to support ad-hoc analysis and reporting, enabling stakeholders to perform rigorous quantitative investigations of system behavior.

Data Pipeline & API Development for Analytics Platform (HCL Technologies)

- Built end-to-end **ETL data pipelines** using **Python** to extract, transform, and load structured data from multiple sources, enabling robust **statistical analysis** and forecasting models.
- Developed **REST APIs** with **Java Spring Boot** to expose analytical endpoints with clear documentation and comprehensive error handling, supporting both real-time and batch-driven quantitative workflows.
- Deployed pipeline infrastructure on **AWS Lambda and EC2** with **Docker containerisation** and **Jenkins CI/CD automation**, ensuring reproducible, production-grade analytical code execution.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
