

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Designed and evaluated **Java Spring Boot** REST APIs and **Python** automation scripts for enterprise applications, demonstrating ability to write clear, high-quality code with detailed documentation for cross-functional teams.
- Solved complex production issues and P1/P2 incidents using **Splunk, CloudWatch, and Dynatrace**, developing troubleshooting expertise and attention to detail required for AI model refinement and code evaluation.
- Built **Python**-based data pipelines and **ETL workflows** with **pandas** and **NumPy**, including ad-hoc **SQL** queries across **PostgreSQL, MySQL, and Oracle**—translating analytical thinking to coding problem-solving.
- Deployed and containerized applications using **AWS (EC2, S3, Lambda)** and **Docker**, managing **Jenkins CI/CD pipelines** and **Git** workflows with emphasis on code quality and maintainability.
- Automated infrastructure monitoring and reporting through **Linux shell scripting** and **cron job** scheduling, demonstrating systematic problem-solving and ability to handle diverse technical challenges.
- Completed **MSc in Data Analytics** and multi-platform **Full Stack Java Spring Boot, Angular, and React** training; fluent in **English (IELTS Band 7)** with strong writing and technical communication skills.

## SKILLS

**Programming Languages** – Python, Java, JavaScript, C.

**Web & Backend Frameworks** – Spring Boot, REST APIs, Flask, FastAPI, Angular, React.

**Data & Databases** – SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy, data pipelines.

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

**Monitoring & Tools** – Splunk, Dynatrace, Linux, Jira, Confluence.

**Core Competencies** – Code evaluation, problem-solving, technical writing, Agile development.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**Enterprise Application Production Support & Monitoring (HCL Technologies)**

- Managed **24/7 production support** for large-scale **Java/.NET applications** serving global clients, utilizing **Splunk, CloudWatch, and Dynatrace** to detect anomalies and resolve P1/P2 incidents within SLA windows.
- Analyzed application logs and system metrics to identify root causes, write detailed incident reports, and provide feedback to development teams—directly improving system reliability and code quality.

- Developed **Python** automation scripts and dashboards for real-time monitoring and alerting, reducing manual intervention by **40%** and enabling faster incident response cycles.

#### **Data Pipeline & ETL Automation (HCL Technologies)**

- Designed and implemented **Python**-based **ETL workflows** using **pandas** and **NumPy** to extract, transform, and validate data from multiple sources across **PostgreSQL, MySQL, and Oracle** databases.
- Built scheduled **cron jobs** on **Linux** for automated data pipeline execution and generated comprehensive analytical reports, ensuring data integrity and on-time delivery to stakeholders.
- Containerized data processing jobs using **Docker** and deployed to **AWS Lambda**, enabling scalable and cost-efficient processing of large datasets for downstream AI and analytics workflows.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
