

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and evaluated **Java Spring Boot** REST APIs and backend services, writing clear, high-quality code with detailed documentation for feature work and bug fixes across enterprise applications.
- Solved complex coding problems and debugging challenges in **Python, Java, and SQL** environments, demonstrating strong problem-solving skills applicable to AI training and code evaluation tasks.
- Developed **Python** automation scripts and data pipelines for ETL workflows, showcasing ability to write efficient, maintainable code and analyze data structures—directly relevant to AI model training and feedback.
- Conducted code reviews and provided constructive feedback on **Git** pull requests within Agile teams, evaluating code for accuracy, performance, and clarity across **CI/CD** pipelines.
- Performed production support and incident response on enterprise systems using **Splunk, CloudWatch, and Dynatrace**, requiring rapid problem diagnosis and clear written communication of root causes.
- Completed **MSc in Data Analytics** (Feb 2025) alongside full-time software engineering role, demonstrating strong time management and ability to balance technical work with continuous learning.

SKILLS

Programming Languages – Java, Python, SQL, JavaScript.

Backend & Frameworks – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle, data validation and schema design.

Code Quality & Evaluation – code review, debugging, performance analysis, CI/CD workflows.

Frontend – React, Angular.

Monitoring & Observability – Splunk, Dynatrace, log analysis, Linux shell scripting.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Application Support & Feature Development (HCL Technologies)

- Maintained and enhanced **Java Spring Boot** microservices in production, writing well-documented REST APIs and resolving defects that impacted user-facing functionality.
- Conducted SLA-driven incident response using **CloudWatch and Dynatrace**, analyzing logs and metrics to identify root causes and communicate findings clearly to stakeholders.

- Evaluated code quality during peer reviews, providing detailed feedback on performance, readability, and best practices—skills directly applicable to assessing AI-generated code.

Python Data Pipeline & Automation Engineering (HCL Technologies)

- Built **Python** ETL scripts and scheduled data pipelines using **pandas** and **NumPy**, demonstrating ability to write clean, efficient code that processes and validates data structures.
- Automated routine reporting and monitoring tasks using **Python scripting** and **Linux cron jobs**, showcasing practical experience in problem-solving and code clarity.
- Debugged and optimized **SQL** queries across **PostgreSQL, MySQL, and Oracle** databases, refining performance and ensuring data integrity—transferable to code evaluation and optimization tasks.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
