+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and debugged **Java Spring Boot** REST APIs and microservices across production environments, ensuring code clarity, performance optimization, and alignment with AI training standards; evaluated **code quality** through peer reviews and automated testing pipelines.
- Architected and maintained **Python**-based data pipelines and ETL workflows for automated reporting and validation, demonstrating ability to write clean, well-documented code that directly supports system reliability and data accuracy.
- Drove production reliability and system health across enterprise applications using **AWS** (EC2, S3, Lambda, CloudWatch), **Splunk**, and **Dynatrace**; managed **P1/P2 incidents** with detailed root cause analysis and preventive feedback that shaped operational improvements.
- Wrote and executed complex **SQL queries** (PostgreSQL, MySQL, Oracle) for data validation and schema optimization; provided detailed explanations of query logic and performance implications to cross-functional teams.
- Developed **Linux shell scripts** and **Python automation** tools to eliminate manual processes; created reproducible, well-commented code that reduced operational overhead by enabling scheduled jobs and system monitoring.
- Contributed to **CI/CD pipelines** via **Jenkins**, **Git**, and **Docker**; maintained clean code practices, comprehensive documentation, and collaborative workflows aligned with Agile/Scrum methodologies.

SKILLS

Programming Languages – Python, Java, JavaScript, SQL, C.

Backend & Frameworks – Spring Boot, Flask, FastAPI, REST APIs.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, SLA management.

Data Engineering – pandas, NumPy, ETL, data pipelines, Jira.

Soft Skills – Technical writing, code documentation, peer collaboration, problem-solving.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Managed production support for mission-critical enterprise **Java/.NET applications**, monitoring system health and performance metrics using **Splunk, CloudWatch, and Dynatrace**.
- Responded to **P1 and P2 incidents** with rapid troubleshooting and root cause analysis; documented findings and provided detailed feedback to development teams to prevent recurrence and improve system reliability.
- Optimized **SLA management** by proactively identifying bottlenecks, analyzing logs, and recommending architectural improvements; maintained **uptime targets** through continuous monitoring and preventive action.

Data Pipeline Automation & ETL Development (HCL Technologies)

- Architected end-to-end **Python-based ETL pipelines** using **pandas** and **NumPy** for automated data extraction, transformation, and scheduled reporting across enterprise systems.
- Wrote clean, well-documented **Python scripts** and **SQL queries** (PostgreSQL, MySQL, Oracle) to validate data integrity, perform schema changes, and enable ad-hoc analytics for stakeholders.
- Deployed automation workflows via **Linux cron jobs** and **Jenkins CI/CD pipelines**, reducing manual effort and ensuring reproducible, reliable execution of critical data operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
