PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and debugged **Java Spring Boot** REST APIs and microservices; wrote clear, production-grade code with comprehensive unit tests and documentation for enterprise applications serving millions of requests.
- Solved complex coding problems and performance issues through **Python** scripting, data pipeline automation, and **SQL** optimization across **PostgreSQL, MySQL, Oracle**; documented solutions with detailed explanations to support knowledge transfer.
- Evaluated system reliability and code quality using **Splunk, Dynatrace, CloudWatch**; provided actionable feedback on logs, metrics, and AI-generated monitoring alerts to improve application stability and developer experience.
- Deployed and containerized applications using **Docker** and **AWS (EC2, S3, Lambda, CloudWatch)**; built automated **Jenkins CI/CD pipelines** to accelerate code delivery and reduce manual errors by **40%**.
- Demonstrated full-stack development capabilities through **React** and **Angular** frontend work combined with backend services; collaborated across frontend, backend, and DevOps teams in Agile environments.
- Maintained excellent code clarity and communication standards through **Git** code reviews, **Jira** ticketing, and technical documentation; scored **Band 7/9 on IELTS Academic** demonstrating fluency in written and verbal English.

SKILLS

Programming Languages – Python, Java, JavaScript, C++.

Backend & Frameworks – Spring Boot, REST APIs, FastAPI, Flask.

Frontend & UI – React, Angular.

Databases & Data – PostgreSQL, MySQL, Oracle, SQL, pandas, NumPy.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, production support.

Tools & Practices – Linux, shell scripting, Jira, Confluence, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices Platform (HCL Technologies)

- Developed and maintained **Spring Boot** microservices handling critical business workflows; wrote **REST APIs** with clear code structure and comprehensive inline documentation for integration with third-party systems.

- Performed detailed code reviews and provided constructive feedback on pull requests; ensured high code quality through **Git** branching strategies and adherence to team coding standards.
- Debugged production issues using **Splunk and CloudWatch**; analyzed logs and metrics to identify root causes, then synthesized findings into detailed technical explanations and preventive solutions.

Automation & Data Pipeline Development (HCL Technologies)

- Built **Python**-based ETL pipelines and scheduled data validation scripts using **pandas**, **NumPy**, and **SQL** queries across multiple database platforms; documented each pipeline's logic and edge cases for team reuse.
- Deployed automation tools on **AWS Lambda** and **EC2** instances with **Docker** containerization; created **Jenkins CI/CD pipelines** to orchestrate end-to-end data workflows and reduce manual processing time.
- Evaluated code snippets and algorithm correctness by performing static analysis and runtime testing; provided clear, actionable feedback to improve code performance and readability for downstream teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
