PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and evaluated **Java Spring Boot** REST APIs and **Python** scripts for production enterprise applications, writing clear, high-quality code with detailed documentation for cross-team collaboration and AI training datasets.
- Built **Python**-based **data pipelines** and **ETL workflows** using **pandas** and **NumPy**, demonstrating strong problem-solving skills in data transformation, validation, and synthesis of analytical insights.
- Diagnosed and resolved **P1/P2 production incidents** using **Splunk**, **Dynatrace**, and **CloudWatch**, evaluating system performance and code accuracy under high-pressure SLA constraints.
- Proficient in **multiple programming languages** including **Python**, **Java**, **JavaScript**, and **SQL** (PostgreSQL, MySQL, Oracle), with hands-on experience solving diverse coding problems and optimising algorithm performance.
- Containerised applications using **Docker** and deployed to **AWS (EC2, S3, Lambda)**, leveraging infrastructure-as-code practices and **CI/CD pipelines** via **Jenkins** to improve deployment reliability.
- Completed **MSc in Data Analytics** with expertise in data analysis, visualization, and reporting; demonstrated strong English communication (IELTS Band 7) and technical writing skills across Agile teams and documentation.

SKILLS

Programming Languages – Python, Java, JavaScript, SQL, C, C#.

Data & Analytics – pandas, NumPy, data pipelines, ETL, SQL querying, PostgreSQL, MySQL, Oracle.

Web & Backend Frameworks – Spring Boot, REST APIs, FastAPI, Flask, React, Angular.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD pipelines.

Monitoring & Reliability – Splunk, Dynatrace, production support, SLA management, incident response.

Tools & Platforms – Linux, Jira, Confluence, shell scripting, log analysis.

Soft Skills – Technical writing, code review, problem-solving, Agile/Scrum, cross-functional collaboration.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Monitored and maintained **Java/.NET production applications** using **Splunk**, **Dynatrace**, and **CloudWatch**, identifying performance bottlenecks and evaluating code accuracy in real-time systems.

- Resolved **P1/P2 incidents** through root-cause analysis and clear technical documentation, providing feedback to development teams to improve code quality and system reliability.
- Authored detailed incident reports and runbooks with high-quality explanations, directly contributing to team knowledge base and AI training datasets for reliability engineering.

Python Data Pipeline & Automation Engineering (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** using **pandas** and **NumPy** for automated data validation, transformation, and scheduled reporting across multiple data sources.
- Optimised **SQL queries** on **PostgreSQL, MySQL, and Oracle** databases, solving complex schema and performance problems with clear, efficient code.
- Built **Linux shell scripts** and **cron jobs** for automation, demonstrating proficiency in scripting languages and system-level problem-solving applicable to diverse coding challenges.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
