PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and solved **diverse coding problems** across **Java, Python, and SQL** during **3.5 years** as Software Engineer at HCL Technologies, developing strong problem-solving and code clarity skills applicable to AI training workflows.
- Developed and evaluated **high-quality code snippets** in **Java Spring Boot** and **REST APIs**, with emphasis on clean architecture, performance optimization, and detailed technical documentation for production systems.
- Wrote and executed **Python scripts** for data pipelines, ETL workflows, and automated reporting using **pandas** and **NumPy**, demonstrating proficiency in solving complex data engineering problems with clear, maintainable code.
- Provided detailed **code feedback** and conducted rigorous **code reviews** using **Git** and **Jenkins CI/CD pipelines**, ensuring accuracy, performance, and adherence to engineering standards across distributed teams.
- Evaluated **AI-generated outputs** and system reliability through **production monitoring** using **Splunk, CloudWatch, and Dynatrace**, refining deployment processes and identifying opportunities for intelligent system improvement.
- Demonstrated fluency in **English** (IELTS Academic Band 7/9) with excellent written communication through technical documentation, API specifications, and Agile collaboration on multinational teams; Bachelor of Engineering and MSc in Data Analytics completed.

SKILLS

Core Programming Languages – Java, Python, SQL, JavaScript, C.

Backend & Web Frameworks – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL.

Monitoring & Code Quality – Splunk, Dynatrace, code review, Jira, Linux.

Frontend & UI Basics – React, Angular.

Soft Skills – Technical writing, problem-solving, Agile methodologies, code clarity.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Managed production support for enterprise **Java and .NET applications**, leveraging **Splunk, CloudWatch, and Dynatrace** to monitor system health, detect anomalies, and respond to P1/P2 incidents within SLA

targets.

- Authored detailed incident reports and **technical documentation** explaining root causes, performance metrics, and remediation strategies, contributing to knowledge base refinement for development teams.
- Evaluated **system reliability** by analyzing logs, traces, and metrics, identifying patterns in AI-generated alerts and recommendations to improve monitoring accuracy.

Data Pipeline & Automation Engineering (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** and automated reporting workflows using **pandas**, **NumPy**, and scheduled **cron jobs** on **Linux** environments, processing complex datasets with high accuracy.
- Executed **SQL queries and schema optimizations** across **PostgreSQL, MySQL, and Oracle** databases, validating data integrity and refining queries for **REST API backends** serving multiple downstream systems.
- Containerized applications using **Docker** and integrated pipelines with **Jenkins CI/CD** for automated deployment, demonstrating proficiency in building scalable, production-grade code solutions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
