

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and debugged **Java Spring Boot** REST APIs and **Python** data pipelines for enterprise applications, writing clear, production-grade code with comprehensive documentation and test coverage.
- Evaluated system performance and code quality across **Java** and **Python** services using **Splunk, Dynatrace, and CloudWatch**, identifying optimization opportunities and providing actionable feedback to development teams.
- Solved complex data challenges through **SQL** query optimization (**PostgreSQL, MySQL, Oracle**), ETL automation, and **pandas/NumPy**-driven analysis, delivering **20+ ad-hoc reports** for stakeholder decision-making.
- Built and maintained **Docker** containerized applications and **Jenkins CI/CD** pipelines, ensuring code quality through rigorous code reviews and **Git** branching strategies across Agile teams.
- Synthesized insights through data visualization and analysis in **Python**, translating complex system metrics into clear narratives for cross-functional teams and leadership.
- Demonstrated strong problem-solving across multiple programming paradigms—**Java, Python, JavaScript**—while maintaining **excellent written communication** standards in technical documentation and incident reports.

SKILLS

Programming Languages – Python, Java, JavaScript, SQL, Kotlin.

Backend & APIs – Spring Boot, REST APIs, Flask, FastAPI.

Data & Analytics – pandas, NumPy, ETL, data pipelines, PostgreSQL, MySQL, Oracle.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, SLA management.

Frontend – React, Angular.

Professional – Agile/Scrum, technical writing, code review, Linux, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Java/Python Application Monitoring & Optimization (HCL Technologies)

- Architected production support strategy using **Splunk and Dynatrace** dashboards, reducing P1 incident response time by tracking SLA compliance across **Java and .NET** services.

- Developed **Python** automation scripts for scheduled reporting and data validation, decreasing manual operational overhead by **30%** and improving data accuracy.
- Evaluated performance metrics and code quality across production systems, synthesizing findings into clear technical reports that informed infrastructure and optimization decisions.

Data Pipeline & ETL Automation (HCL Technologies)

- Designed and executed **Python-based ETL pipelines** with **pandas** and **NumPy** for large-scale data transformation, handling **PostgreSQL, MySQL, and Oracle** data sources.
- Built **Docker**-containerized pipeline services and deployed via **Jenkins CI/CD**, ensuring reproducible, reliable data workflows with comprehensive documentation.
- Created data visualizations and dashboards to synthesize insights from pipeline outputs, enabling stakeholders to extract actionable intelligence from complex datasets.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
