

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Designed and debugged diverse **Java Spring Boot** and **Python** applications for enterprise clients, writing clear, high-quality code with detailed documentation and comprehensive unit test coverage.
- Evaluated production system performance using **Splunk, Dynatrace, and CloudWatch**, identifying bottlenecks and providing actionable feedback that shaped reliability improvements across **P1/P2 incident response** workflows.
- Developed **Python automation scripts** and **ETL data pipelines** for reporting and validation, demonstrating strong problem-solving skills in processing complex data structures with **pandas and NumPy**.
- Built and maintained **REST APIs** using **Spring Boot**, ensuring code quality through **Git** version control, peer code reviews, and **Jenkins CI/CD** pipeline execution in Agile environments.
- Deployed and managed containerized applications using **Docker** on **AWS** infrastructure (**EC2, S3, Lambda**), with hands-on experience in Linux system administration and shell scripting.
- Queried and optimized **SQL databases (PostgreSQL, MySQL, Oracle)** for ad-hoc analysis and schema validation, supporting data-driven decision-making across cross-functional teams.

## SKILLS

**Programming Languages** – Java, Python, JavaScript, SQL.

**Backend & Frameworks** – Spring Boot, REST APIs, Flask, FastAPI.

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

**Databases** – PostgreSQL, MySQL, Oracle.

**Data Engineering & Analytics** – ETL, pandas, NumPy, data validation, SQL scripting.

**Monitoring & Observability** – Splunk, Dynatrace, CloudWatch, log analysis.

**Frontend & Tools** – React, Angular, Jira, Confluence, Linux.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**Enterprise Production Support & Reliability Engineering (HCL Technologies)**

- Monitored and resolved **P1/P2 incidents** across distributed Java/.NET systems using **Splunk and Dynatrace**, maintaining SLA compliance through rapid root-cause analysis and clear technical communication.
- Designed automated diagnostic **Python scripts** to detect anomalies in application logs and metrics, reducing mean time to resolution (MTTR) and improving system observability.

- Collaborated with cross-functional teams in **Agile/Scrum** ceremonies to document incidents, provide feedback for system improvements, and shape reliability strategy.

#### **REST API Development & Data Pipeline Engineering (HCL Technologies)**

- Developed feature enhancements and bug fixes for production **Spring Boot REST APIs**, with emphasis on code clarity, performance, and comprehensive test coverage.
- Built **Python ETL pipelines** using **pandas and NumPy** to process, validate, and synthesize enterprise data, generating scheduled reports and supporting data-driven insights.
- Managed code quality through **Git** branching strategies, peer reviews, and automated **Jenkins CI/CD pipelines**, ensuring reliable deployment to **Docker** containers on **AWS** infrastructure.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
