

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** using **Java Spring Boot**, solving complex coding problems and writing high-quality code snippets with clear documentation for enterprise applications serving **100K+ users**.
- Evaluated and debugged **production code** across multiple languages and frameworks—**Java, Python, SQL**—identifying performance bottlenecks and providing actionable feedback to improve system reliability and AI training datasets.
- Built data pipelines and **ETL scripts** in **Python** (pandas, NumPy) for data validation and synthesis, transforming raw data into structured insights used across enterprise reporting and machine learning workflows.
- Developed **full-stack features** with **Spring Boot** backend and **Angular** frontend, demonstrating proficiency in both server-side and client-side development across diverse technology stacks.
- Automated infrastructure monitoring and incident response using **CloudWatch, Splunk, and Dynatrace**; created **Linux shell scripts** and **Jenkins CI/CD pipelines** to streamline deployment workflows and reduce manual toil.
- Collaborated with cross-functional teams in **Agile/Scrum** environments to deliver quality software, conducting code reviews on **Git** and maintaining clear technical documentation in **Confluence**.

SKILLS

Programming Languages – Python, Java, TypeScript, JavaScript, SQL, C.

Frameworks & APIs – Spring Boot, Flask, FastAPI, React, Angular, REST APIs.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Databases – PostgreSQL, MySQL, Oracle, SQL query optimization.

Data & Monitoring – pandas, NumPy, Splunk, Dynatrace, ETL pipelines, data validation.

Development Practices – Agile/Scrum, code review, CI/CD, technical documentation, Jira.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Engineered **Spring Boot microservices** and **REST APIs** for legacy system refactor, improving code maintainability and enabling seamless integration with downstream services.
- Implemented comprehensive **unit and integration tests** and established **Jenkins CI/CD pipelines** to ensure **zero-downtime deployments** and reduce production defects by **30%**.

- Conducted rigorous code reviews and provided detailed feedback on algorithm efficiency and design patterns, mentoring junior developers on best practices for scalable software architecture.

Data Pipeline & Reporting Automation (HCL Technologies)

- Built **Python ETL pipelines** using **pandas** and **NumPy** to ingest, validate, and transform multi-source data; automated scheduled reporting that reduced manual data processing time by **40%**.
- Optimized **SQL queries** across **PostgreSQL**, **MySQL**, and **Oracle** databases for ad-hoc analytics, ensuring data accuracy and enabling real-time insights for stakeholder dashboards.
- Synthesized complex datasets into actionable visualizations, directly supporting business intelligence and AI model training data preparation workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
