PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** and backend services using **Java Spring Boot**, writing clean, well-documented code snippets with detailed explanations for **3.5 years** of production experience.
- Evaluated code quality and performance across **enterprise Java/.NET applications**, providing constructive feedback to optimize system reliability and maintainability in high-stakes environments.
- Solved diverse technical problems through **Python** scripting, **SQL** optimization, and **Linux** automation, demonstrating strong problem-solving skills across multiple programming paradigms.
- Built and maintained **CI/CD pipelines** using **Jenkins** and **Git**, ensuring code quality through rigorous code reviews and adherence to software engineering best practices.
- Analyzed and debugged complex systems using **Splunk**, **Dynatrace**, and **CloudWatch**, translating technical issues into clear, actionable insights for cross-functional teams.
- Completed **MSc in Data Analytics** alongside full-time development work, demonstrating ability to balance professional responsibilities with continuous technical learning and skill development.

SKILLS

Core Programming Languages – Java, Python, JavaScript, C#.

Backend & Web Frameworks – Spring Boot, Flask, FastAPI, REST APIs.

Databases & Data Handling – PostgreSQL, MySQL, Oracle, SQL, pandas, NumPy.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

DevOps & Version Control – Jenkins, Git, CI/CD pipelines, Jira.

Monitoring & Analytics – Splunk, Dynatrace, CloudWatch.

Frontend Basics – React, Angular.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Application Production Support & Reliability Engineering (HCL Technologies)

- Managed production support for **enterprise Java/.NET applications** serving high-volume transaction processing, achieving **SLA compliance** through rapid **P1/P2 incident response** and root-cause analysis.
- Implemented monitoring and alerting strategies using **Splunk**, **Dynatrace**, and **CloudWatch**, reducing mean time to detection (MTTD) and enabling proactive system health management.

- Developed **Python**-based automation scripts for log analysis, system health checks, and scheduled reporting, eliminating manual overhead and improving operational efficiency.

Data Pipeline Development & API Enhancement (HCL Technologies)

- Designed and deployed **ETL pipelines** using **Python** with **pandas** and **NumPy**, processing and validating large datasets for downstream analytics and business intelligence.
- Extended **Java Spring Boot microservices** with new **REST API endpoints**, implementing feature requests and bug fixes while maintaining code clarity and comprehensive documentation.
- Optimized **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases, reducing query execution time and improving data retrieval performance for high-frequency analytical workloads.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
