

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** using **Java Spring Boot**, writing clean, high-quality code with detailed documentation to support feature delivery and integration across enterprise systems.
- Solved complex coding problems and evaluated **code quality** across **Java, Python, and SQL** through production support workflows, identifying performance bottlenecks and providing actionable feedback for system improvements.
- Built **Python** automation scripts and **data pipelines** for ETL processes, leveraging **pandas** and **NumPy** for data validation and analysis with clear explanations of logic and approach.
- Deployed and monitored applications on **AWS (EC2, S3, Lambda, CloudWatch)** using **Docker** containerisation, ensuring reliability and performance through detailed observability and incident response.
- Executed **CI/CD pipelines** with **Jenkins** and **Git**, maintaining code quality through rigorous reviews and demonstrating strong attention to detail in technical documentation and communication.
- Fluent in English with strong writing and grammar skills; MSc in Data Analytics and Bachelor of Engineering degree; 3.5 years of professional software engineering experience across full-stack development and reliability engineering.

SKILLS

Programming Languages – Java, Python, JavaScript, C, SQL.

Web & API Development – Spring Boot, REST APIs, Angular, React.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Data & Databases – PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL.

Tools & Practices – Splunk, Dynatrace, Jira, Linux, Shell Scripting, Agile/Scrum.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Java Application Support & Reliability Engineering (HCL Technologies)

- Monitored production **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, identifying performance issues and writing detailed root cause analyses to guide system improvements.
- Responded to P1/P2 incidents with **SLA adherence**, leveraging **Linux** log analysis and shell scripting to diagnose and resolve production issues rapidly.
- Developed and maintained **SQL** queries across **PostgreSQL, MySQL, and Oracle** for data validation and schema changes, documenting complex logic for team understanding.

Microservices Development & Automation (HCL Technologies)

- Built feature enhancements and bug fixes in **Java Spring Boot** microservices with **REST API** development, ensuring code clarity and comprehensive documentation.
- Designed **Python**-based automation frameworks and **ETL data pipelines** using **pandas** for scheduled reporting, with clear explanations of data transformations and logic.
- Deployed containerised services using **Docker** on **AWS** infrastructure, configured **Jenkins CI/CD pipelines**, and participated in **Git** code reviews to maintain high code quality standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
