+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Performed **production support and quality monitoring** of enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**, managing SLA compliance and P1/P2 incident response in fast-paced manufacturing-adjacent environments; demonstrated systematic problem-solving and cross-functional communication with operations, engineering, and senior management teams.
- Designed and implemented **Python automation scripts and data pipelines** for ETL, scheduled reporting, and quality data collection; leveraged **pandas and NumPy** to validate manufacturing datasets and generate actionable insights for process improvement initiatives.
- Executed **SQL queries and schema changes** across **PostgreSQL, MySQL, and Oracle** databases to support quality investigations, nonconforming material assessments, and compliance audits; demonstrated proficiency in data integrity and documentation practices required for GMP and regulatory standards.
- Contributed to **CI/CD pipelines using Jenkins and Git** with code reviews and branching strategies; applied version control and change management discipline aligned with ISO and quality system requirements for safe, compliant product distribution.
- Maintained comprehensive documentation using **Jira and Confluence** for defect tracking, CAPA investigations, and procedure updates; performed routine audits to verify systems effectiveness and communicated quality, safety, and environmental concerns to cross-functional teams.
- Completed **MSc in Data Analytics** with expertise in statistical analysis, data engineering, and quality assurance methodologies; holds **Full Stack Java Spring Boot certification** and industry-recognized training in web development and Python programming, supporting technical depth in manufacturing quality systems.

SKILLS

Quality & Manufacturing Systems – Production Support, Quality Monitoring, SLA Management, GMP Compliance, Incident Response, Change Management.

Programming & Data Engineering – Python, Java, SQL, ETL, Data Pipelines, Automation Scripting.

Databases & Tools – PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, CloudWatch.

Cloud & DevOps – AWS (EC2, S3, Lambda), Docker, Jenkins, Git, Linux, Shell Scripting.

Data Analysis – pandas, NumPy, Data Validation, Reporting, Statistical Analysis.

Collaboration & Documentation – Jira, Confluence, Microsoft Office, Agile/Scrum, Cross-functional Communication.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Managed real-time monitoring and alerting for mission-critical Java/.NET applications using **Splunk and Dynatrace**, reducing mean time to resolution (MTTR) by proactive incident classification and root cause analysis.
- Performed production log analysis and **Linux shell scripting** to automate diagnostics and health checks; documented findings in Confluence for knowledge sharing and process improvement across quality and operations teams.
- Supported SLA compliance through systematic incident tracking in **Jira**, collaborated with cross-functional teams on corrective actions, and ensured adherence to internal quality standards and external service level agreements.

Data Pipeline & Quality Assurance Automation (HCL Technologies)

- Developed **Python-based ETL pipelines** and scheduled reporting automation using **pandas and NumPy** for manufacturing and inspection data validation, improving data accuracy and enabling faster quality decisions.
- Implemented **Oracle and PostgreSQL** queries for ad-hoc quality investigations, nonconforming material assessments, and compliance audits; ensured data integrity and regulatory documentation standards.
- Integrated automation workflows with **AWS Lambda and Jenkins CI/CD pipelines**, version-controlled code changes using **Git**, and maintained comprehensive documentation in Jira and Confluence to support continuous process improvement initiatives.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
