+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **REST APIs** and microservices using **Java Spring Boot**, implementing tool schemas and function-calling patterns for enterprise workflows; contributed to service orchestration and reliability engineering across production systems.
- Built automation and data pipeline tooling in **Python** (pandas, NumPy, Flask, FastAPI) for ETL and scheduled reporting; developed reusable scripts and SDKs for backend integration and agent-style tool invocation.
- Managed **AWS** infrastructure (**EC2, S3, Lambda, CloudWatch**) and containerized applications with **Docker**; implemented observability and monitoring using **Splunk** and **Dynatrace** to track system health and incident response—directly supporting reliability and traceability for agent runs.
- Completed hands-on certifications in **Full Stack Java Spring Boot & Angular** and web development, gaining practical experience with frontend frameworks and backend service integration; actively contributing to **React** and **Angular** component patterns.
- Executed **CI/CD pipelines** using **Jenkins** and **Git**, performed code reviews, and managed defect tracking with **Jira**; ensured high-quality deployments and clear communication across Agile teams—practices directly applicable to shipping tested agent workflows.
- Demonstrated expertise in **SQL (PostgreSQL, MySQL, Oracle)**, Linux administration, and shell scripting; designed data validation and retrieval strategies that support context management and state persistence for complex systems.

SKILLS

Frontend & UI Frameworks – React, Angular, AngularJS, JavaScript/TypeScript, component design.

Backend & API Development – Java Spring Boot, Python (Flask, FastAPI), Node.js, REST APIs.

Data & Agent Tooling – Python (pandas, NumPy), SQL (PostgreSQL, MySQL, Oracle), ETL, data pipelines, tool schemas.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD.

Observability & Reliability – Splunk, Dynatrace, CloudWatch, monitoring, incident response, SLA management.

Development Practices – Jira, Confluence, Agile/Scrum, code review, Linux, shell scripting.

Certifications & Education – MSc Data Analytics (National College of Ireland), Full Stack Java Spring Boot & Angular, Web Development (UC Davis), Python Programming (University of Michigan).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Automation Platform (HCL Technologies)

- Engineered production support infrastructure using **Splunk, CloudWatch, and Dynatrace** to monitor Java/.NET applications at scale; reduced P1 incident response time through automated alerting and log analysis, improving SLA compliance.
- Developed **Python automation scripts** for alert aggregation, root-cause analysis, and incident workflow orchestration; created data pipelines for real-time reporting and context enrichment—patterns applicable to agent observability and prompt evaluation.
- Collaborated with platform teams to document reliability runbooks and troubleshooting guides; established reusable monitoring templates and SDKs for service integration.

Microservices API Development & Integration (HCL Technologies)

- Designed and delivered **REST APIs** using **Java Spring Boot** with robust error handling, retry logic, and guardrails; implemented function-calling patterns for tool orchestration across multiple backend services.
- Built backend tooling in **Python** and **Node.js** for service integration, schema validation, and data transformation; integrated with **AWS** services (**Lambda, S3, EC2**) for deployment and scaling.
- Implemented **Docker** containerization and **Jenkins CI/CD pipelines** for automated testing and deployment; contributed to design systems, accessibility standards, and component documentation for developer teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
