PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and incident response** for enterprise Java/.NET applications across multiple environments, managing **P1/P2 escalations** and maintaining **SLA compliance** using **Splunk, CloudWatch, and Dynatrace** monitoring tools
- Resolved **hardware and software support requests** through systematic troubleshooting and root-cause analysis, utilizing **incident logging systems** (Jira) to track, document, and follow up on user issues to confirmation of resolution
- Performed **system maintenance and patching** across **Linux** infrastructure, including log analysis, security updates, and dependency management to ensure systems remained secure and up-to-date
- Automated **repetitive IT tasks** using **Python scripting** and **shell scripting**, reducing manual effort and improving team efficiency in data validation, reporting, and scheduled job execution
- Supported **application deployment and configuration** using **Docker containerization** and **Jenkins CI/CD pipelines**, ensuring consistent builds and reliable software releases across environments
- Collaborated with cross-functional teams through **Agile ceremonies** and maintained clear communication via **Confluence documentation**, demonstrating strong problem-solving and interpersonal skills in a fast-paced enterprise setting

SKILLS

IT Support & Systems – Production Support, Incident Logging, Hardware Monitoring, System Patching, Linux Administration.

Monitoring & Observability – Splunk, CloudWatch, Dynatrace, Log Analysis.

Scripting & Automation – Python, Shell Scripting, Cron Jobs, Scheduled Reporting.

Infrastructure & Deployment – AWS (EC2, S3, Lambda), Docker, Jenkins, Git.

Database & Data Management – PostgreSQL, MySQL, Oracle, SQL, Data Validation.

Problem-Solving & Communication – Troubleshooting, SLA Management, Agile/Scrum, Jira, Confluence.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & SLA Management (HCL Technologies)

- Established proactive monitoring framework using **Splunk and Dynatrace** for mission-critical Java/.NET applications, reducing mean time to detection (MTTD) by enabling real-time alerting and log correlation

- Managed **P1/P2 incident response** workflows, coordinating with application teams to resolve production issues and maintain **SLA compliance** across multiple customer environments
- Performed root-cause analysis on recurring incidents and documented findings in **Jira**, driving continuous improvement and preventing future outages

Infrastructure Automation & System Maintenance (HCL Technologies)

- Developed **Python and shell scripts** to automate system patching, log rotation, and security updates across **Linux** infrastructure, ensuring consistent compliance with security policies
- Implemented **Docker-based containerization** for application deployments and configured **Jenkins CI/CD pipelines** with Git branching strategies, reducing deployment time and improving release reliability
- Conducted ad-hoc SQL queries and schema validation against **PostgreSQL, MySQL, and Oracle** databases to support data integrity checks and troubleshoot application-level issues

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
