

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Supported production systems and infrastructure reliability through **SLA management** and **P1/P2 incident response**, leveraging **Splunk, CloudWatch, and Dynatrace** for real-time monitoring and compliance tracking across enterprise applications.
- Developed and maintained **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting, reducing manual intervention and improving operational efficiency across support teams.
- Executed **SQL queries** and schema changes on **PostgreSQL, MySQL, and Oracle** databases, performing data validation and ad-hoc analysis to support system diagnostics and project delivery.
- Collaborated with engineering teams on **Java Spring Boot microservices**, delivering **REST API** feature work and bug fixes while maintaining code quality through peer reviews and **Git** branching strategies.
- Deployed and managed containerised applications using **Docker** and **AWS infrastructure** (EC2, S3, Lambda, CloudWatch), with hands-on experience in CI/CD pipeline orchestration via **Jenkins**.
- Demonstrated strong organisational and communication skills through cross-functional coordination with development, QA, and infrastructure teams, Agile/Scrum ceremony participation, and technical documentation via **Jira and Confluence**.

SKILLS

Backend & Data Engineering – Python, Java, Spring Boot, Flask, FastAPI, SQL, REST APIs, ETL pipelines.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Monitoring & Operations Support – Splunk, Dynatrace, production incident management, SLA compliance, system reliability.

Databases – PostgreSQL, MySQL, Oracle, data validation, schema design.

DevOps & Version Control – Jenkins, Git, CI/CD pipelines, code reviews, Agile workflows.

Project & Quality Tools – Jira, Confluence, log analysis, technical documentation.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Application Production Support & Reliability (HCL Technologies)

- Provided **24/7 production support** for critical enterprise **Java and .NET applications**, achieving consistent SLA compliance through rapid **incident triage** and root cause analysis using **Splunk and Dynatrace**.
- Automated routine monitoring and alerting workflows using **Python scripts** and **CloudWatch** configuration, reducing manual intervention and improving mean-time-to-resolution (MTTR) for P1 and P2 incidents.

- Collaborated with development and infrastructure teams to coordinate bug fixes, feature deployments, and system patches, maintaining operational continuity across multiple services.

Data Pipeline & Automation Engineering (HCL Technologies)

- Designed and deployed **ETL pipelines** using **Python, pandas, and NumPy** to extract, transform, and load operational data from multiple sources into centralised repositories for reporting and analytics.
- Implemented scheduled **cron jobs** and **Linux shell scripts** to automate data validation, reconciliation, and report generation, freeing up **25%** of team bandwidth for higher-value support activities.
- Supported data-driven decision-making by executing complex **SQL queries** on **PostgreSQL and Oracle** databases, providing timely insights to engineering and management teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
