PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and reliability engineering** for enterprise applications across **Java, .NET, and microservices** platforms, managing SLA compliance and responding to **P1/P2 incidents** with average resolution time under target thresholds.
- Monitored system health and performance using **Splunk, CloudWatch, and Dynatrace**, identifying bottlenecks in mechanical and electrical infrastructure logs to prevent downtime and optimize operational efficiency.
- Automated preventative maintenance workflows and asset tracking using **Python scripting, ETL pipelines, and scheduled reporting**, reducing manual intervention by **30%** and improving compliance documentation.
- Performed infrastructure troubleshooting and system diagnostics on **Linux servers, Docker containers, and AWS cloud services (EC2, S3, Lambda)**, ensuring continuous availability and quick resolution of critical failures.
- Maintained accurate records of system configurations, incidents, and audits using **Jira and Confluence**, supporting compliance requirements and knowledge sharing across cross-functional teams.
- Collaborated with technical teams across **CI/CD pipelines, Git workflows, and code reviews**, demonstrating strong teamwork and adaptability in fast-paced, changing operational environments.

SKILLS

Production Support & Maintenance – incident response, SLA management, system monitoring, troubleshooting, preventative maintenance workflows.

Monitoring & Diagnostics Tools – Splunk, CloudWatch, Dynatrace, Linux log analysis.

Automation & Scripting – Python, shell scripting, ETL pipelines, scheduled reporting, cron jobs.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, data validation, ad-hoc queries.

Development & Tools – Java Spring Boot, REST APIs, Jenkins, Git, Jira, Confluence.

Soft Skills – decision-making, teamwork, communication, adaptability, attention to detail.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Established real-time monitoring dashboards using **Splunk and CloudWatch** for critical Java and .NET microservices, achieving **99.2% uptime** and reducing mean time to resolution (MTTR) by **25%**.

- Responded to production incidents across multiple severity levels, performing root cause analysis and implementing corrective actions to prevent recurrence, while maintaining detailed audit trails in **Jira**.
- Coordinated with infrastructure and development teams to troubleshoot system failures on **AWS (EC2, S3, Lambda)** and **Docker** environments, ensuring minimal service disruption.

Automation & Compliance Reporting Framework (HCL Technologies)

- Designed and deployed **Python-based ETL scripts** to automate data collection, validation, and reporting from multiple enterprise databases (**PostgreSQL, MySQL, Oracle**), eliminating manual processes and improving accuracy.
- Scheduled automated jobs using **cron and Jenkins pipelines** to generate daily compliance and performance reports, enabling stakeholders to track system health and SLA adherence in real time.
- Maintained comprehensive system documentation and configuration records in **Confluence**, supporting audit requirements and facilitating knowledge transfer across support teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
