PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **24x7 production support** for enterprise **Java/.NET applications** across multiple environments, managing **P1/P2 incidents** and maintaining **SLA compliance** using **Splunk, CloudWatch, and Dynatrace** monitoring tools.
- Designed and implemented **Python automation scripts** for infrastructure tasks, data pipelines, and **ETL workflows**, reducing manual operational overhead and improving system reliability in high-availability environments.
- Architected and deployed **AWS-based infrastructure solutions (EC2, S3, Lambda, CloudWatch)** with **Docker containerisation**, ensuring scalability, resilience, and secure integration across application teams.
- Established and optimized **CI/CD pipelines** using **Jenkins** and **Git**, implementing code review processes and automated deployments that improved deployment frequency and reduced production incidents by enabling rapid, reliable releases.
- Performed **SQL database administration** and schema optimization across **PostgreSQL, MySQL, and Oracle** environments, ensuring data integrity, security, and performance in mission-critical systems.
- Mentored junior team members on **Linux system administration**, troubleshooting methodologies, and infrastructure best practices, contributing to team capability development and knowledge sharing within Agile/Scrum environments.

SKILLS

Infrastructure & Cloud Technologies – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux administration, shell scripting.

Microsoft & Systems Administration – Active Directory concepts, system monitoring, incident response, SLA management, security best practices.

Automation & Scripting – Python, REST APIs, ETL pipelines, scheduled automation, infrastructure-as-code principles.

Databases – PostgreSQL, MySQL, Oracle, SQL optimization, data validation, schema management.

DevOps & CI/CD – Jenkins, Git, code review processes, CI/CD pipeline design, deployment automation.

Monitoring & Security – Splunk, Dynatrace, CloudWatch, vulnerability remediation, security patching, audit support.

Professional Practices – ITIL principles, Agile/Scrum, Jira, technical documentation, team mentoring, critical thinking.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Infrastructure Optimization (HCL Technologies)

- Led **production support operations** for mission-critical **Java Spring Boot and .NET applications** in a **24x7 operational environment**, managing incident escalation, root cause analysis, and rapid remediation to maintain **SLA targets**.
- Implemented **Python-based automation scripts** for infrastructure health checks, log aggregation, and automated remediation, reducing manual intervention and improving system stability and mean-time-to-recovery (MTTR).
- Configured and optimized **AWS infrastructure** including **EC2 instances, S3 storage, and Lambda functions** with **CloudWatch monitoring**, ensuring high availability, disaster recovery readiness, and secure infrastructure alignment with organizational standards.

CI/CD Pipeline Modernization & Deployment Automation (HCL Technologies)

- Designed and deployed **Jenkins CI/CD pipelines** integrating **Git version control** and automated testing, enabling continuous delivery of **Spring Boot REST APIs** and reducing manual deployment overhead.
- Established **Docker containerisation** practices and container orchestration workflows, improving consistency across development, testing, and production environments while enhancing security posture.
- Developed **SQL database migration and validation scripts** to support application deployments across **PostgreSQL, MySQL, and Oracle** environments, ensuring data integrity and zero-downtime transitions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
