

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Managed production support and monitoring of enterprise applications using **Splunk**, **CloudWatch**, and **Dynatrace**, ensuring SLA compliance and rapid P1/P2 incident response in regulated environments requiring strict data integrity and quality standards.
- Designed and deployed **Python** automation scripts for data pipelines, ETL workflows, and scheduled reporting, processing and validating large datasets to support operational efficiency and compliance documentation.
- Administered **SQL** databases (**PostgreSQL**, **MySQL**, **Oracle**) including schema management, ad-hoc data queries, and validation tasks, ensuring accurate record-keeping aligned with GMP and quality requirements.
- Developed **Java Spring Boot** REST APIs and microservices for enterprise applications, implementing feature work and bug fixes with rigorous **Git** branching, code reviews, and **CI/CD pipeline** integration via **Jenkins**.
- Deployed and managed containerised applications using **Docker** and **AWS** services (**EC2**, **S3**, **Lambda**), supporting scalable infrastructure for production workloads and automated monitoring.
- Maintained comprehensive documentation and training records in **Jira** and **Confluence**, tracked quality metrics and process improvements across Agile/Scrum ceremonies, and performed **Linux** system administration including log analysis and shell scripting.

## SKILLS

**Languages & Core Development** – Python, Java, SQL, Shell scripting.

**Frameworks & APIs** – Spring Boot, REST APIs, Flask, FastAPI.

**Databases** – PostgreSQL, MySQL, Oracle.

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

**DevOps & Tools** – Jenkins, Git, CI/CD, Jira, Confluence.

**Monitoring & Observability** – Splunk, Dynatrace, CloudWatch, data validation.

**Data & Analytics** – pandas, NumPy, ETL, data pipelines, reporting.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**Enterprise Application Monitoring & Incident Response (HCL Technologies)**

- Implemented comprehensive production support framework using **Splunk** and **Dynatrace** to monitor enterprise Java/.NET applications across multiple environments, achieving **99%+ SLA compliance**.
- Developed automated alert escalation and incident response workflows, reducing mean-time-to-resolution (MTTR) for P1/P2 incidents by enabling rapid root cause analysis and cross-functional coordination.

- Maintained detailed incident logs and post-mortem documentation in **Jira**, identifying systemic improvements and driving process optimisation across the support team.

#### **Data Engineering & Automation Pipeline (HCL Technologies)**

- Engineered **Python**-based ETL pipelines and automation scripts to extract, validate, and load data from multiple sources into **PostgreSQL** and **MySQL** databases, enabling accurate reporting and compliance documentation.
- Designed scheduled reporting jobs using **cron** and **shell scripting** to generate daily operational metrics and quality dashboards, reducing manual data compilation effort by **60%**.
- Integrated data pipelines with **AWS Lambda** and containerised workflows via **Docker**, ensuring automated, scalable data processing aligned with enterprise quality and auditability standards.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
