PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production monitoring and incident response** for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, ensuring **SLA compliance** and rapid resolution of P1/P2 incidents in a **24/7 support environment**.
- Designed and executed **Python-based data pipelines and ETL scripts** for automated reporting and data validation, reducing manual processing time by **40%** and improving data accuracy across multiple source systems.
- Administered **SQL databases (PostgreSQL, MySQL, Oracle)** including schema design, ad-hoc query optimization, and data integrity validation; ensured **GMP-compliant data entry and record-keeping** standards.
- Developed and maintained **REST APIs and microservices** using **Java Spring Boot**, supporting feature delivery and bug fixes across **cloud-hosted applications on AWS (EC2, S3, Lambda)**.
- Generated **operational metrics, business dashboards, and compliance reports** using **SQL and Python**; identified and communicated process improvement opportunities to technical teams and stakeholders.
- Coordinated **CI/CD pipelines with Jenkins**, managed **Git workflows and code reviews**, and maintained comprehensive **documentation in Jira and Confluence** to ensure quality standards and operational transparency.

SKILLS

Data Management & Analysis – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), ETL, data pipelines, ad-hoc reporting.

Monitoring & Quality Assurance – Splunk, CloudWatch, Dynatrace, SLA management, GMP compliance, data integrity.

Backend & Cloud Technologies – Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda), Docker, Linux.

DevOps & Version Control – Jenkins, Git, CI/CD pipelines, code reviews, shell scripting.

Laboratory Information Systems – LIMS fundamentals, sample documentation, environmental monitoring reports.

Tools & Methodologies – Jira, Confluence, Agile/Scrum, incident management, process optimization.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Support & Reliability Engineering (HCL Technologies)

- Monitored **enterprise Java/.NET applications** across production environments using **Splunk and Dynatrace**, identifying root causes and implementing fixes for **P1 incidents** to maintain **99.5% uptime SLA**.
- Automated incident response workflows using **Python scripts** that ingested alert data, performed correlation analysis, and generated actionable escalation reports, reducing mean-time-to-response by **35%**.
- Maintained comprehensive **runbooks and operational documentation** in Confluence; conducted knowledge transfer sessions with support teams to ensure consistent service quality and GMP-aligned procedures.

Data Pipeline & Reporting Automation (HCL Technologies)

- Engineered end-to-end **ETL pipelines using Python (pandas, NumPy)** to extract data from **PostgreSQL and Oracle databases**, transform multi-source datasets, and load into reporting systems on a **scheduled basis using cron jobs**.
- Developed **automated reporting suite** that generated daily operational metrics, quality dashboards, and compliance reports; eliminated manual data aggregation and reduced errors by **45%**.
- Deployed pipeline infrastructure on **AWS Lambda and EC2** using **Docker containerization**, managed version control with **Git**, and integrated with **Jenkins CI/CD** for automated testing and deployment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
