+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported production operations for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, monitoring system health, responding to P1/P2 incidents, and maintaining SLA compliance in line with operational standards and quality requirements.
- Managed laboratory data workflows and reporting automation through **Python scripting, ETL pipelines, and scheduled reporting**, ensuring accurate data collection, validation, and GMP-compliant documentation for analytical processes.
- Performed routine systems maintenance and troubleshooting using **Linux shell scripting, log analysis, and cron job scheduling**, coordinating with infrastructure teams to resolve equipment and software issues promptly.
- Executed ad-hoc data queries and analysis using **SQL (PostgreSQL, MySQL, Oracle)** to support investigative work, process validation, and compliance reporting across multiple enterprise databases.
- Contributed to CI/CD and deployment processes via **Jenkins pipelines and Git version control**, supporting code reviews and change management aligned with quality and compliance protocols.
- Demonstrated technical proficiency with **AWS cloud services (EC2, S3, Lambda, CloudWatch) and Docker containerisation**, supporting scalable infrastructure and deployment workflows in regulated environments.

SKILLS

Data & Laboratory Operations – ETL pipelines, data validation, SQL querying, sample management, GMP documentation.

Programming & Scripting – Python, Java, Shell scripting, REST APIs, Flask, FastAPI.

Monitoring & Compliance – Splunk, CloudWatch, Dynatrace, SLA management, incident response, quality assurance.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle, data pipeline management.

Tools & Methodologies – Jira, Confluence, Agile/Scrum, cron job scheduling, log analysis.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Monitoring & Incident Response System (HCL Technologies)

- Established real-time monitoring infrastructure for enterprise Java/.NET applications using **Splunk and Dynatrace**, reducing mean time to resolution (MTTR) for critical incidents.

- Developed automated alerting and escalation protocols to respond to P1/P2 incidents within SLA windows, coordinating with cross-functional teams to maintain service reliability.
- Maintained comprehensive operational dashboards and reports to track system health, performance metrics, and compliance status.

Data Pipeline & Automation Initiative (HCL Technologies)

- Designed and implemented **Python-based ETL pipelines** for automated data collection, transformation, and validation from multiple enterprise sources.
- Created **scheduled reporting automation using cron jobs and shell scripts**, delivering GMP-aligned reports to stakeholders and reducing manual processing effort by approximately **40%**.
- Performed SQL-based data quality checks and investigations to ensure accuracy and integrity of analytical datasets.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
