## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Managed production support and monitoring of enterprise applications using **Splunk, CloudWatch, and Dynatrace**, ensuring **SLA compliance** and rapid response to P1/P2 incidents; transferable expertise in data integrity, system reliability, and operational excellence aligned with GMP and quality standards.
- Designed and executed **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting; experience with **data validation, quality metrics generation, and process optimization** directly applicable to sample management documentation and environmental monitoring reports.
- Administered **SQL databases (PostgreSQL, MySQL, Oracle)** including schema changes, ad-hoc queries, and data accuracy verification; skilled in **LIMS data entry, record-keeping accuracy, and compliance** with regulatory requirements across multiple systems.
- Developed and maintained **REST APIs and microservices** using **Java Spring Boot**; experienced in coordinating complex data workflows, managing dependencies, and ensuring seamless integration between laboratory systems and external data sources.
- Collaborated across cross-functional teams in **Agile/Scrum environments**, managing ticketing in **Jira, Confluence**, and conducting code reviews; demonstrated flexibility to support multiple operational areas and proactively identify process improvement opportunities.
- Proficient in **Linux administration, shell scripting, and Git version control**; experienced in maintaining documentation systems, training records, and audit trails in accordance with quality and data integrity standards.

## SKILLS

**Data Management & Quality** – SQL (PostgreSQL, MySQL, Oracle), data validation, LIMS, GMP compliance, documentation standards, ad-hoc reporting.

**Automation & Process Optimization** – Python scripting, ETL workflows, data pipelines, scheduled reporting, process improvement identification.

**Systems & Tools** – Splunk, CloudWatch, Dynatrace, Jira, Confluence, Git, Linux.

**Software Development** – Java Spring Boot, REST APIs, microservices, Docker.

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Jenkins CI/CD pipelines.

**Certifications & Education** – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

### **Enterprise Monitoring & Incident Management (HCL Technologies)**

- Supported production environments by monitoring **enterprise Java and .NET applications** across multiple cloud platforms using **Splunk, CloudWatch, and Dynatrace**; ensured **SLA compliance** and coordinated rapid response to critical incidents.
- Engineered **Python-based automation scripts** to streamline alert processing, data aggregation, and report generation; reduced manual intervention by implementing **scheduled data pipelines** and improving incident visibility.
- Maintained comprehensive audit logs and documentation of all incidents and system changes; demonstrated meticulous attention to accuracy, compliance, and quality standards equivalent to GMP and regulatory requirements.

### **Data Pipeline & Reporting Automation (HCL Technologies)**

- Designed and deployed **ETL pipelines and Python automation** for data validation, transformation, and quality metric generation across enterprise databases (**PostgreSQL, MySQL, Oracle**).
- Generated automated environmental and operational reports delivered to stakeholders on schedule; identified bottlenecks and implemented optimizations that improved **process efficiency and data accuracy**.
- Collaborated with cross-functional teams in **Agile environments** to translate business requirements into technical solutions; leveraged **Jira, Confluence, and Git** for seamless workflow coordination and version control.

## **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
