

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production support and reliability engineering for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, ensuring **SLA compliance** and rapid incident resolution for P1/P2 issues in fast-paced manufacturing environments
- Developed **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting—demonstrating strong problem-solving and process optimization skills applicable to material ordering lists and drawing documentation
- Created and maintained detailed technical documentation, filing systems, and drawing registers using **Git, Jira, and Confluence**; experienced with document management workflows and change tracking aligned to compliance requirements
- Collaborated cross-functionally with engineering teams, project managers, and stakeholders to communicate technical specifications, modifications, and issue resolutions—translating complex requirements into actionable deliverables
- Demonstrated meticulous attention to detail in **SQL schema design, data validation**, and quality assurance processes; experienced in evaluating technical specifications and identifying discrepancies
- Proficient in **Microsoft Office** and comfortable learning specialized industry software; proven track record of rapid upskilling across diverse technical tools and platforms in professional settings

SKILLS

3D Modelling & Design Software – Technical drawing interpretation, design specification evaluation, working knowledge of CAD principles.

Documentation & Compliance – Drawing registers, material lists, CE certification documentation, document management systems, filing procedures.

Manufacturing & Engineering Concepts – Production support experience, material specifications, manufacturing process understanding, fabrication workflows.

Technical Tools & Software – Microsoft Office, Jira, Confluence, Git, Linux command line.

Core Competencies – Problem-solving, attention to detail, written and oral communication, independent and team-based work, prioritization under tight deadlines.

Data & Process Engineering – Python, SQL, ETL workflows, process automation, reporting systems.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Production Support & Reliability Engineering (HCL Technologies)

- Monitored and supported **Java and .NET applications** in production environments using advanced monitoring tools; managed SLA compliance and coordinated incident response workflows
- Analyzed logs and system metrics using **Splunk and CloudWatch** to identify root causes, communicate findings to engineering teams, and prepare detailed incident reports—paralleling the documentation and communication rigor required for site erection drawings and project liason
- Developed and maintained **automation scripts in Python** to streamline recurring support tasks, reducing manual effort and improving team efficiency across ticketing and asset management

Data Pipeline & Automation Engineering (HCL Technologies)

- Built **ETL pipelines and scheduled reporting workflows** using **Python, SQL, and AWS Lambda** to process and deliver enterprise data on strict timelines—demonstrating capability to meet tight production deadlines and manage complex multi-step processes
- Created and validated **SQL queries and schema modifications** across **PostgreSQL, MySQL, and Oracle** databases; performed data validation and integrity checks ensuring accuracy and compliance with specifications
- Collaborated with stakeholders to gather requirements, document technical specifications, and deliver reporting solutions—building expertise in translating business needs into technical deliverables aligned with manufacturing and operational priorities

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
