PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **scalable event-driven microservices** using **Java Spring Boot** and **REST APIs**, ensuring high-performance, low-latency operation across enterprise systems serving millions of transactions; optimized response times by **30%** through caching and asynchronous processing patterns.
- Led real-time system reliability and performance optimization through **Splunk**, **Dynatrace**, and **CloudWatch** monitoring; achieved **99.5% SLA compliance** via rapid P1/P2 incident response, root cause analysis, and proactive alerting strategies in production environments.
- Engineered **Python-based data pipelines** and **ETL workflows** for complex data transformation and validation; processed high-volume datasets using **pandas** and **NumPy**, enabling data-driven decision-making across cross-functional teams.
- Developed and maintained robust **SQL schemas** across **PostgreSQL**, **MySQL**, and **Oracle**; performed ad-hoc query optimization, data validation, and schema migrations supporting operational analytics and reporting systems.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git**, automating build, test, and deployment workflows; reduced deployment cycle time by **40%** and improved code quality through mandatory peer reviews and automated testing.
- Containerized applications using **Docker** and deployed across **AWS infrastructure (EC2, S3, Lambda, CloudWatch)**; collaborated with Product and Engineering teams in Agile/Scrum ceremonies to deliver stable, reliable features aligned with platform objectives.

SKILLS

Backend & Core Languages – Java, Spring Boot, Python, SQL.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Databases – PostgreSQL, MySQL, Oracle.

Data Engineering & Analytics – Python (pandas, NumPy), ETL, data pipelines, Flask, FastAPI.

DevOps & Reliability – Jenkins, Git, CI/CD, Splunk, Dynatrace, monitoring, SLA management.

Tools & Collaboration – Jira, Confluence, Agile/Scrum, REST APIs.

Frontend (Basics) – Angular, React.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices & Real-Time Monitoring Platform (HCL Technologies)

- Built **event-driven microservices** in **Java Spring Boot** with **REST APIs** for enterprise trading and commerce workflows; architected for scalability, security, and high-performance operation in production environments.
- Implemented comprehensive **real-time monitoring and alerting** using **Splunk, Dynatrace, and CloudWatch**; maintained **99.5% SLA** through proactive incident detection, rapid response to P1/P2 issues, and continuous performance optimization.
- Automated infrastructure provisioning and deployment using **AWS (EC2, S3, Lambda), Docker, and Jenkins CI/CD pipelines**; reduced deployment time by **40%** and improved release reliability across development and production tiers.

Data Pipeline & Analytics Engineering Platform (HCL Technologies)

- Engineered end-to-end **ETL pipelines** in **Python** leveraging **pandas and NumPy** for large-scale data transformation, validation, and aggregation; processed multi-terabyte datasets to support operational reporting and analytics.
- Optimized **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases; performed schema design, data validation, and migration management ensuring data integrity and query performance for critical business functions.
- Developed **Flask and FastAPI** microservices as data access layers; integrated with **AWS services** and deployed via **Docker and Jenkins**, enabling seamless data consumption across Product and Quantitative teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
