+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Operated and maintained enterprise **Java Spring Boot** and **.NET** applications in production, delivering **P1/P2 incident response** and SLA management using **Splunk, CloudWatch, and Dynatrace** for continuous monitoring and troubleshooting.
- Designed and deployed **CI/CD pipelines** using **Jenkins** and **Git**, automating build, test, and release processes across multiple environments to accelerate deployment cycles and reduce manual effort by **40%**.
- Built and maintained **Docker** containerised applications and managed infrastructure across **Linux (RHEL)** and Windows environments, supporting consistent deployments from development through production.
- Developed automation scripts in **Python** and **Bash** for configuration management, log analysis, and scheduled reporting; leveraged **cron jobs** and shell scripting to streamline operational tasks and improve platform reliability.
- Managed cloud infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)**, configuring instances, storage, and monitoring to support scalable and resilient application platforms in regulated enterprise environments.
- Collaborated cross-functionally with development, QA, and architecture teams using **Jira, Confluence**, and Agile ceremonies to drive continuous improvement, document release processes, and enhance overall DevOps maturity.

SKILLS

CI/CD & Release Management – Jenkins, Git, CI/CD pipelines, build automation, release processes, environment configuration.

DevOps & Infrastructure – Docker, Linux (RHEL), AWS (EC2, S3, Lambda, CloudWatch), Bash, shell scripting, cron jobs.

Monitoring & Observability – Splunk, CloudWatch, Dynatrace, incident response, SLA management, performance troubleshooting.

Programming & Scripting – Python, Java, Spring Boot, REST APIs, SQL (PostgreSQL, MySQL, Oracle).

Operational Support – Production support, system administration, log analysis, root cause analysis, Agile/Scrum practices.

Collaboration & Tools – Jira, Confluence, Git version control, code reviews, cross-functional teamwork.

Cloud & Data – AWS platform administration, data pipelines, ETL, automated reporting.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Established production monitoring framework using **Splunk, CloudWatch, and Dynatrace** for real-time visibility into **Java Spring Boot** and **.NET** application health and performance metrics.
- Implemented structured **P1/P2 incident response** procedures, achieving **95%+ SLA compliance** through rapid troubleshooting, root cause analysis, and cross-team coordination.
- Automated alerting and escalation workflows, reducing mean time to detection (MTTD) and enabling proactive incident prevention in regulated enterprise environments.

CI/CD Pipeline & Automation Enhancement (HCL Technologies)

- Architected and maintained **Jenkins-based CI/CD pipelines** integrated with **Git** branching strategy, enabling automated builds, tests, and deployments across **Docker** containerised environments.
- Developed **Python** and **Bash** automation scripts for infrastructure provisioning, configuration management, and deployment validation, reducing manual operational overhead.
- Collaborated with development and QA teams to optimize release processes, improve deployment frequency, and strengthen code review practices within Agile/Scrum workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
