+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Operated production **enterprise Java/.NET applications** on **AWS (EC2, S3, Lambda, CloudWatch)** using **Splunk** and **Dynatrace** for observability; managed SLA compliance and P1/P2 incident response in 24/7 reliability support model.
- Automated infrastructure and data workflows using **Python** scripting, **shell scripts**, and **cron jobs** on **Linux** systems; reduced manual operational toil through scheduled reporting and ETL pipelines.
- Deployed and maintained containerized workloads using **Docker**; built and reviewed **CI/CD pipelines** in **Jenkins** with **Git** branching strategies and code quality gates across 15+ microservices.
- Developed **REST APIs** and feature work in **Java Spring Boot**; wrote and optimized **SQL** queries across **PostgreSQL, MySQL, and Oracle** for data validation and schema migrations supporting high-availability systems.
- Practiced Infrastructure as Code principles through **Jenkins pipeline definitions** and version-controlled configuration; collaborated on Agile/Scrum teams using **Jira** and **Confluence** for ticketing and documentation.
- Completed **MSc in Data Analytics** alongside full-time production engineering role; gained applied experience in data pipelines, automation, and observability across cloud-native architectures.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Infrastructure as Code mindset.

Kubernetes & Container Orchestration – Docker containerization, Kubernetes deployment concepts, container networking basics.

Infrastructure as Code & Automation – Python, Bash scripting, CI/CD pipelines (Jenkins), Git version control.

Databases & Data Engineering – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), data pipelines and ETL.

Backend Development – Java, Spring Boot, REST APIs, application debugging and performance tuning.

Observability & Reliability – Splunk, Dynatrace, CloudWatch, SLA management, production incident response.

Networking & Security Foundations – TCP/IP, DNS, cloud networking (VPCs, subnets), identity concepts.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of **02/2026**
Ireland, Dublin

BACHELOR OF ENGINEERING in Computer Science – SNS College **01/2021**
of Technology, Coimbatore, India

PROJECTS

Production Observability & Incident Response Platform (HCL Technologies)

- Implemented **Splunk** and **Dynatrace** monitoring for 20+ enterprise Java/.NET applications on **AWS**; configured real-time alerting and dashboards for SLA tracking and P1/P2 incident escalation.
- Built **Python automation scripts** to correlate logs, extract metrics, and generate compliance reports; reduced incident mean-time-to-resolution by proactive alerting on resource thresholds.
- Documented runbooks and operational procedures in **Confluence**; standardized incident classification and on-call handoff processes across the reliability engineering team.

Data Pipeline & Microservice CI/CD Automation (HCL Technologies)

- Designed and maintained **Jenkins pipelines** for **Docker**-based microservice deployments; integrated **Git** branching, automated testing, and artifact versioning across 15+ services.
- Developed **Python ETL scripts** and **Bash automation** to extract, validate, and load data from multiple databases (**PostgreSQL, MySQL, Oracle**); scheduled jobs on **Linux cron** reduced manual data reconciliation by 80%.
- Contributed **Spring Boot REST APIs** for data ingestion endpoints; wrote optimized **SQL queries** for analytics pipelines and applied database schema changes in production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
