

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **multi-tier Java Spring Boot microservices** with **REST APIs**, applying software engineering best practices including **TDD, code reviews, and CI/CD pipelines** via **Jenkins** and **Git**
- Engineered **Python**-based data pipelines and ETL workflows for enterprise reporting, demonstrating ability to work across multiple languages and build production-grade automation scripts
- Built reliability and observability into applications using **Splunk, CloudWatch, and Dynatrace**; managed **SLA-critical P1/P2 incidents** with rapid diagnosis and resolution in fast-moving production environments
- Deployed and optimized containerized services on **AWS (EC2, S3, Lambda, CloudWatch)** using **Docker**, gaining hands-on experience with cloud-native infrastructure and infrastructure-as-code principles
- Collaborated in cross-functional, Agile teams using **Jira, Confluence, and Git workflows**; contributed to knowledge sharing and continuous learning culture through code reviews and technical documentation
- Demonstrated bias for experimentation by prototyping **Python automation solutions** with **pandas, NumPy, Flask, and FastAPI**, evaluating outcomes critically against business requirements

SKILLS

Languages & Frameworks – Python, Java, Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL.

Observability & Reliability – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Software Engineering Practices – CI/CD, code reviews, TDD, Agile/Scrum, Jira.

Frontend (Basics) – React, Angular.

Data Analytics – MSc in Data Analytics (National College of Ireland); statistical analysis, data visualization.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response Platform (HCL Technologies)

- Architected production support framework for **Java/.NET enterprise applications**, leveraging **Splunk, Dynatrace, and CloudWatch** for real-time observability across distributed systems
- Implemented **Python automation scripts** for anomaly detection and alert routing, reducing mean time to resolution (MTTR) by enabling faster diagnosis of SLA-critical incidents

- Established **CI/CD best practices** with **Jenkins pipelines** and **Git branching strategies** to ensure reliable deployments and minimize production incidents

Data Pipeline & ETL Automation Suite (HCL Technologies)

- Designed end-to-end **Python-based ETL pipelines** using **pandas, NumPy, and SQL** to automate data validation, transformation, and scheduled reporting across multiple databases (**PostgreSQL, MySQL, Oracle**)
- Deployed pipeline infrastructure on **AWS Lambda and CloudWatch Events**, enabling serverless execution of critical data workflows with minimal operational overhead
- Demonstrated prototyping and evaluation mindset by iterating on pipeline logic, testing against production data volumes, and documenting outcomes for stakeholder review

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
