PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** and backend services using **Java Spring Boot**, improving data throughput efficiency for enterprise applications; experience directly applicable to Laboratory Information Systems evolution and integration/data import-export systems.
- Automated data pipelines and ETL workflows with **Python** scripting, reducing manual data processing by ~40% and ensuring reliable data transfer between systems—core capability for managing instrument data integration and high-volume data throughput.
- Managed **PostgreSQL, MySQL, and Oracle** databases including schema design, ad-hoc queries, and data validation; proficient in creating and modifying database structures to support new functionality and automated quality control verifications.
- Deployed and maintained applications on **AWS cloud infrastructure** (EC2, S3, Lambda, CloudWatch) and troubleshoot issues in both on-premise and cloud environments, with hands-on experience in **Docker** containerisation and **CI/CD pipelines** using **Jenkins**.
- Performed production support and incident response with focus on reliability and SLA management using **Splunk, CloudWatch, and Dynatrace**; demonstrated ability to troubleshoot complex systems and maintain high-availability data systems.
- Collaborated with cross-functional teams in Agile/Scrum environments using **Jira** and **Confluence**; wrote clear design documentation, proposed solutions to managers, and developed clean, readable, maintainable code following team procedures.

SKILLS

Backend & API Development – Java Spring Boot, REST APIs, Flask, FastAPI.

Data Management & Engineering – Python, SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

DevOps & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace.

Frontend Technologies – React, Angular.

Quality & Process – Agile/Scrum, code review, CI/CD, shell scripting.

Languages – English (IELTS Band 7).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Application Monitoring & Data Automation (HCL Technologies)

- Developed **Python automation scripts** for continuous data pipeline orchestration and scheduled reporting, ensuring reliable data transfer and minimizing manual intervention in production systems.
- Implemented **SQL data validation** queries and maintained **PostgreSQL** schemas to support evolving application functionality and automated quality control checks across multiple environments.
- Configured monitoring dashboards in **Splunk and CloudWatch** to track application health, data throughput, and system performance; responded to P1/P2 incidents with focus on reliability and SLA adherence.

REST API Development & Cloud Deployment (HCL Technologies)

- Designed and built **REST APIs** using **Java Spring Boot** for data integration and feature enhancements, ensuring scalability and ease of use for downstream systems.
- Deployed applications on **AWS infrastructure** (EC2, S3, Lambda) with **Docker** containerisation and automated deployment via **Jenkins CI/CD pipelines**, reducing deployment time and improving reliability.
- Collaborated with team members through code reviews and design discussions; documented API specifications and deployment procedures to ensure knowledge sharing and code maintainability across the team.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
