## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** **09/2021 – 01/2025 (3.5 Years)**

---

- Delivered world-class **production support** for enterprise **Java/.NET** applications, responding to **P1/P2 incidents** within SLA targets using **Splunk, CloudWatch, and Dynatrace** for real-time monitoring and root-cause analysis.
- Gathered and analyzed **logs, configuration details, and system metrics** to troubleshoot complex infrastructure and application issues, documenting findings and resolutions in ticketing systems with **full transparency and clarity**.
- Proactively identified potential performance bottlenecks and reliability risks through **CloudWatch dashboards and log analysis**, recommending preventative solutions that improved system stability and reduced customer-impacting incidents by **~20%**.
- Collaborated cross-functionally with development and operations teams to escalate complex cases, drive resolution timelines, and ensure customers remained informed throughout the support lifecycle.
- Developed **Python automation scripts and shell utilities** to streamline repetitive support tasks, data validation workflows, and scheduled reporting—demonstrating initiative and technical depth in problem-solving.
- Maintained detailed **knowledge sharing via documentation, technical discussions, and code reviews** in **Git and Jira**, contributing to team capability and ensuring best practices across **CI/CD pipelines and Jenkins automation**.

## SKILLS

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux administration, shell scripting.

**Monitoring & Observability** – Splunk, Dynatrace, CloudWatch, log analysis, performance troubleshooting.

**Software Development** – Java Spring Boot, REST APIs, Python scripting, SQL (PostgreSQL, MySQL, Oracle).

**DevOps & Tools** – Jenkins, Git, Jira, CI/CD pipelines, container orchestration basics.

**Data & Reporting** – ETL pipelines, SQL queries, pandas, NumPy, ad-hoc data validation.

**Soft Skills** – SLA management, incident response, technical documentation, accountability, collaboration, transparency.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** **02/2026**

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** **01/2021**

---

## PROJECTS

**Enterprise Application Reliability & Incident Response (HCL Technologies)**

- Managed **24/7 production support** for mission-critical **Java and .NET** enterprise applications, responding to customer-impacting incidents with accountability and urgency.

- Utilized **Splunk, CloudWatch, and Dynatrace** to gather system metrics, trace application behavior, and isolate root causes across distributed infrastructure.
- Escalated complex issues internally with clear documentation and regular customer communication, driving resolution while maintaining SLA commitments and customer confidence.

#### **Infrastructure Automation & Operational Efficiency (HCL Technologies)**

- Developed **Python scripts and shell utilities** to automate repetitive support tasks, log aggregation, and data pipeline workflows, reducing manual effort and improving response times.
- Built **AWS Lambda**-based scheduled reporting functions and **Docker**-based containerized tools to standardize deployment and enable team reusability.
- Documented automation solutions and best practices in **Confluence and Git repositories**, enabling other team members to leverage and extend tools within their support domains.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
