PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **24/7 production support** for enterprise Java and .NET applications, managing **P1/P2 incidents** and maintaining SLA compliance through proactive monitoring with **Splunk, CloudWatch, and Dynatrace**
- Troubleshoot and resolved complex technical issues independently, using systematic problem-solving and root cause analysis to minimize downtime and improve system reliability across multiple environments
- Configured and deployed **Docker containers** and **AWS infrastructure** (EC2, S3, Lambda), gaining hands-on experience with hardware abstraction and cloud-based service provisioning for end-user applications
- Automated routine IT tasks through **Python scripting, shell scripting, and Linux administration**, reducing manual workload by creating scheduled jobs and data processing pipelines
- Managed asset tracking, ticketing workflows, and technical documentation in **Jira and Confluence**, communicating effectively with cross-functional teams during Agile ceremonies and code reviews
- Collaborated with development and operations teams to troubleshoot connectivity, database, and application issues, demonstrating strong communication skills at all organizational levels

SKILLS

IT Support & Troubleshooting – incident response, problem-solving, SLA management, asset management, ticketing systems.

Systems & Networking – Linux, Windows environments, Docker, AWS (EC2, S3, Lambda, CloudWatch), shell scripting.

Databases & Scripting – SQL (PostgreSQL, MySQL, Oracle), Python, data validation, automation.

IT Service Management – Jira, Confluence, Agile/Scrum, Git, CI/CD (Jenkins), technical documentation.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, log analysis, performance troubleshooting.

Application Support – Java Spring Boot, REST APIs, backend debugging, production incident management.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Production Support (HCL Technologies)

- Owned day-to-day reliability for multiple mission-critical **Java Spring Boot and .NET applications** serving enterprise clients, responding to incidents with **average resolution times within SLA**
- Monitored system health using **Splunk dashboards, CloudWatch metrics, and Dynatrace APM**, identifying performance bottlenecks and escalating critical issues to development teams

- Performed root cause analysis on recurring failures, reducing repeat incidents by **30%** through collaborative troubleshooting and implementation of preventative measures

Infrastructure Automation & Data Pipeline Development (HCL Technologies)

- Developed **Python-based ETL scripts and automated reporting pipelines** to streamline data validation and scheduled job execution across **PostgreSQL, MySQL, and Oracle databases**
- Deployed and managed **Docker containers** and **AWS Lambda functions** for infrastructure provisioning, reducing manual setup time for new environments by **40%**
- Created and maintained technical documentation in **Confluence** for runbooks, troubleshooting guides, and deployment procedures, ensuring knowledge sharing across teams

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
