

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Python** automation scripts and **ETL data pipelines** for enterprise applications, processing and validating large datasets to support business intelligence and operational reporting workflows.
- Designed and deployed **AWS serverless solutions** leveraging **Lambda**, **API Gateway**, and **CloudWatch** for event-driven architectures, improving application scalability and reducing infrastructure overhead.
- Built **REST APIs** and microservices using **Java Spring Boot** and **Python** frameworks (**Flask**, **FastAPI**), following object-oriented design principles and clean code standards in production environments.
- Implemented **Infrastructure-as-Code** practices with **Docker** containerization and **CI/CD pipelines** using **Jenkins** and **Git**, enabling reliable and repeatable deployments across multiple environments.
- Performed production reliability engineering and P1/P2 incident response using **Splunk**, **Dynatrace**, and **CloudWatch**, achieving **SLA compliance** through proactive monitoring, troubleshooting, and performance optimization.
- Collaborated with cross-functional teams in Agile/Scrum ceremonies, conducted code reviews, and participated in pair programming sessions to drive continuous improvement in development processes and technical standards.

SKILLS

Programming Languages – Python, Java, JavaScript, SQL.

Cloud & Serverless – AWS Lambda, API Gateway, EC2, S3, CloudWatch, DynamoDB experience.

Data Engineering & Processing – ETL pipelines, pandas, NumPy, data validation, PostgreSQL, MySQL, Oracle.

Web Frameworks & APIs – Spring Boot, Flask, FastAPI, REST API development.

DevOps & Infrastructure – Docker, Jenkins, Git, Linux, CI/CD pipelines, CloudWatch monitoring.

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Agile/Scrum.

Software Engineering – Object-oriented design, clean code principles, code reviews, system design.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Platform (HCL Technologies)

- Architected and implemented comprehensive production monitoring solution using **Splunk** and **Dynatrace** for real-time visibility into enterprise **Java/.NET applications**, enabling rapid detection and resolution of P1/P2 incidents.

- Developed **Python automation scripts** to aggregate logs from **CloudWatch**, correlate alerts, and generate automated incident reports, reducing mean time to resolution (MTTR) by **30%**.
- Collaborated with infrastructure and DevOps teams to establish SLA-driven monitoring dashboards and runbooks, improving incident response time and system reliability.

Serverless Data Pipeline & Reporting System (HCL Technologies)

- Designed and deployed a **serverless data pipeline** using **AWS Lambda**, **API Gateway**, and **S3** to ingest, transform, and validate structured data from multiple sources on scheduled intervals.
- Built **Python ETL workflows** leveraging **pandas** and **NumPy** to process datasets and load results into **PostgreSQL** and **MySQL** databases, enabling stakeholders to access real-time business metrics.
- Implemented **Infrastructure-as-Code** using **Docker** and **Jenkins CI/CD pipelines** to automate testing, validation, and deployment, ensuring data quality and pipeline reliability across development, staging, and production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
