PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Diagnosed and resolved **P1/P2 production incidents** across enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, ensuring **SLA compliance** and minimizing customer impact in high-availability environments.
- Designed and implemented **Python automation scripts** and **ETL data pipelines** to streamline operational workflows, reducing manual toil by **~30%** and enabling the support team to resolve issues autonomously.
- Developed backend features and **REST APIs** using **Java Spring Boot**, contributing to production services supporting enterprise customers with strict **service-level objectives**.
- Managed the full life-cycle of technical improvements including **schema design, migration planning, and validation** using **PostgreSQL, MySQL, and Oracle**, working closely with stakeholders to identify and fix root causes of data issues.
- Created standardized **CI/CD pipelines** in **Jenkins** and established **Git branching strategies**, enabling faster deployment cycles and reducing deployment-related blockers across teams.
- Performed system-level troubleshooting on **Linux** infrastructure, analyzed application logs, and authored **shell scripts** for automated monitoring and alerting, driving operational excellence and cost efficiency.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy.

DevOps & Reliability – Jenkins, Git, CI/CD pipelines, Splunk, Dynatrace, CloudWatch.

Tools & Platforms – Jira, Confluence, Agile/Scrum.

Frontend Basics – React, Angular.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Led **production support** for mission-critical enterprise applications, implementing automated alerting and dashboards in **Splunk and Dynatrace** to reduce mean-time-to-resolution (MTTR) by **~25%**.
- Triaged and escalated technical issues across hardware, software, and operational domains, partnering with engineering teams to investigate root causes and implement permanent fixes.

- Created operational playbooks and runbooks that enabled junior engineers to manage and resolve issues independently, improving team velocity and customer satisfaction.

Automation & Data Pipeline Development (HCL Technologies)

- Architected and deployed **Python ETL pipelines** for scheduled reporting and data validation, automating previously manual processes and reducing processing time by **~40%**.
- Designed **Java Spring Boot microservices** and **REST APIs** to support backend workflows, ensuring reliability and maintainability for downstream systems.
- Established **Jenkins CI/CD workflows** with automated testing and deployment gates, reducing deployment failures and enabling continuous delivery of improvements across the supply chain software stack.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
